

**SCHEME OF WORK
PRIMARY TWO (P2)
SCIENCE AND ELEMENTARY TECHNOLOGY (SET)**

Teacher's name		Academic year	2025/2026
School name		N° of students	
Class		Terms	
Subject	Science and Elementary Technology (SET)	Number of periods per week	2

TERM ONE

UNIT 1		NATURAL AND ARTIFICIAL THINGS						Periods: 8
Key unit competence		Identify natural things and artificial (man-made) things and show interest and care in protecting natural things.						
Dates/ Weeks	Lesson title/ periods	Learning objectives	Content Summary	Teaching and learning activities/ Approaches	Teaching and learning aids	Assessment	References	Weekly obser- vation
Week 1: 8-12/9/ 2025	Lesson 1: Natural things (2 periods)	-Identify the natural things -Take care of natural things and keep them safe from harm.	Natural things, trees, sand, stones, animals	- Observe pictures or moving around the school to discuss and find out various natural things and artificial (man-made) things. - Sort out various natural resources and man-made things	-Real objects/concrete materials like leaves, flowers, fruits, seeds, stones, soil, sand, -Sticks, water in a clear container, insects -Charts showing natural things: trees, rivers, sun, moon	-Identify natural items. -Name natural materials. -Match materials to sources. -Sort natural from artificial materials. -Answer simple questions. -Draw natural materials.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide (REB, 2025)	
		Remedial session						

Week 2: 15-19/9/ 2025	Lesson 2: Artificial (man-made) things (2 periods)	-Outline artificial things -Explain the difference between natural things and artificial things.	Artificial things cars, clothes, chairs, bicycles, bottles, boats	-In groups, pupils Sort out various natural resources and man-made things. -Sort natural and artificial materials. -Touch and describe artificial materials. -Find artificial materials in the classroom.	-Real objects/concrete materials like chair, pencil, plastic bottle, car, clothes & -Charts showing man-made things like pens, notebooks, computers, bottles	-Identify Artificial (Man- made) things with examples -Name artificial materials -Sort artificial materials from other materials. -Match artificial materials to their names. -Oral questions	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 3: 22-26/9/ 2025	Lesson 3: Practical activities on the content of the unit (2 periods)	Practice the content of the unit	Cars, trees, stones, boats, plates, bricks	Discuss and brainstorm to find more examples of natural things and artificial (man-made) thin	Flowers, fruits, seeds, stones, soil, sand, Sticks, water in a clear container, insects, chairs, bricks, papers, tables	Differentiate Natural things and artificial (Man-Made) things	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							

Week 4: 29/9-3/10/2025	Lesson 4: End of unit assessment (2 periods)	-Assess the acquired competences - Demonstrate the achievement of the key unit competence	Cars, trees, stones, boats, plates, bricks, Artificial things Cars, clothes, chairs, bicycles, bottles, boats	-Sort materials into natural and artificial. Match objects to materials. Answer questions about materials. -Draw or label objects. -Teacher reviews, observes, and gives feedback.	Flowers, fruits, seeds, stones, soil, sand, Sticks, water in a clear container, insects, chairs, bricks, papers, tables	Identify natural and artificial things and grouping them in a table	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil’s book (REB, 2025) -SET P2 Teacher’ guide		
	Remedial session								
UNIT 2		MAKING TOYS AND TEACHING AND LEARNING MATERIALS						Periods: 12	
Key unit competence		Make toys, teaching and learning materials and other simple things.							
Dates/weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation	
Week 5: 6-10/10/2025	Lesson 1: Making a toy bird out of papers (2 periods)	To make a toy bird using paper.	Toy, bird, papers	-Make bird toy by imitating the clear steps demonstrated by teacher. Fly the toy bird made in the school compound	Common materials like scissors, rulers, papers used to make the toy birds.	-Choose the right materials to make toy bird. -Follow steps to make a toy bird and talk about how it is made. -Circle materials used to make toy bird.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil’s book (REB, 2025) -SET P2 Teacher’ guide		
	Remedial session								

Week 6: 13-17/10/2025	Lesson 2: Making a toy car out of dry sorghum sticks or straws or wires (2 periods)	To make a toy car using dry sorghum sticks or straws or wires	Toy, car sticks, straws, wires	Making a toy car out of dry sorghum sticks using straws or wires by following given steps.	-Common materials like dry sorghum sticks, straws and wires -Pictures/chart showing the materials used to make toy cars.	-Choose the right materials to make toy car. -Follow steps to make a toy car and talk about how it is made and play with it confidently -Circle materials used to make toy car.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 7 20-24/10/2025	Lesson 3: Making a toy airplane out of an empty plastic bottle (2 periods)	To make an airplane toy using an empty plastic bottle	Plastic, bottles, toy, airplane	-Make airplane toy by imitating the clear steps demonstrated by teacher. -Fly the toy airplane made in the school compound	Common materials used to make a toy airplane: plastic bottle, cardboard (for wings and tail), scissors or knife, glue or tape, markers, bottle caps (for wheels), nail	-Choose the right materials used to make toy airplane. -Follow steps to make Airplane toy and talk about how it is made and play with it confidently. -Circle materials used to make toy airplane.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 8: 27-31/10/2025	Lesson 4: Making a wall clock toy out of a box (2 periods)	To make a wall clock toy using a box	Wall, clock toy, box	Make a wall clock toy by imitating the clear steps demonstrated by teacher.	Common materials used to make a toy clock like cardboard, scissors or knife, glue or	-Choose the right materials to make toy wall clock out of box. -Follow steps to make a wall clock toy and talk about	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025)	

				Follow the steps and make a wall clock toy using boxes.	tape, markers, nail, pen ruler	how, it is made and play with it confidently. -Circle materials used to make toy airplane.	-SET P2 Teacher' guide	
	Remedial session							
Week 9: 3-7/11/ 2025	Practical activities on the content of the unit (2 periods)	Practice the content of the unit	Make, Toy, Car, Wires, Bottles, Box, List, Match, Circle	-In groups, pupils practicing a toy of: a bird, a car, a wall clock and airplane toy using common materials. -Make airplane and car toys using sorghum sticks, tree sticks and papers by following given steps. -Make more toys and learning materials out of paper, dry sorghum sticks, straw or wire and box	Scissors, plastic bottle, cardboard (for wings and tail), scissors or knife, glue or tape, markers, bottle caps (for wheels), nail, dry sorghum sticks, straws and wires	-Choose right materials to use, and follow steps given by teacher to make toys and talk about how they make them. -Make different toys from local materials.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							

Week 10: 10-14/11/2025	Lesson 5: End of unit assessment (2 periods)	- Assess the acquired Competence -Demonstrate the achievement of the key unit competence	Make, Toy, Car, Wires, Bottles, Box, List, Match, Circle	Individually, pupils should be able to recognize different toys, identifying materials used to make toys and uses of toys to children	Scissors, plastic bottle, cardboard (for wings and tail), scissors or knife, glue or tape, markers, bottle caps (for wheels), nail, dry sorghum sticks, straws and wires	-Choose right materials to use, and follow steps given by teacher to make toys and talk about how they make them. -Make different toys from local materials.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil’s book (REB, 2025) -SET P2 Teacher’ guide	
	Remedial session							
UNIT 3	COMPUTER MY FRIEND						Periods: 6	
Key unit competence		Name the main parts of a computer and use the computer correctly and safely.						
Dates/weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation
Week 11: 17-21/11/2025	Lesson 1: The parts of a laptop computer/ (2 periods)	-List and identify the parts of a laptop computer -Point to and name the outside parts of a computer and say what they do.	Laptop, Screen, Keyboard, Touchpad, adapter	Visit a computer lab to observe and identify different parts of a computer	Real laptop computer or an XO laptop computer. A projector for showing an image of the parts of a computer.	-Name different outer parts of computer -Draw and shade parts of laptop computer. -Label parts of laptop computer from image or drawings.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil’s book (REB, 2025) -SET P2 Teacher’ guide	
	Remedial session							

Week 12: 24-28/11/2025	Lesson2: The parts of a desktop computer/ (2 periods)	-List the parts of a desktop computer -Identify the parts of a desktop computer	Desktop, Mouse; case, cable, display	Visit a computer lab to identify the difference between a laptop computer and a desktop computer.	Desktop computer or an image of a desktop computer and projector for showing the parts of a desktop computer.	-Name different outer parts of desktop computer -Draw and shade parts of desktop computer. -Label parts of desktop computer from image or drawings.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 13: 1-5/12/2025	Lesson3: Uses of the parts of a computer 2Period 2	-List the uses of the different parts of a computer. -Use the computer in a safe way to avoid harm.	Screen, typing, keyboard, computer	Label diagrams of a desktop and laptop computer with their correct part names. Discuss and brainstorm about external parts of the computer and their functions	Images of laptop computer or desktop computer illustrating the use of a computer, images of a computer being used	-Identify uses of parts of computer. -Match parts of computer to their uses.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 14&15: 8-19/12/2025	END OF TERM 1 EXAMS							

TERM TWO

UNIT 3		COMPUTER MY FRIEND						Periods: 8
Key unit competence		Name the main parts of a computer and use the computer correctly and safely						
Dates/ Weeks	Lesson title/ periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observat ion
Week 1: 5-9/1/2026	Lesson4: Taking care of a Computer/ (2 periods)	-State the proper ways to take care of a computer -Demonstrate responsibility in handling computers by keeping it clean and using it properly to avoid damage -Take care of all computer parts.	Computer, covering, keyboard	Discuss and brainstorm about the ways of taking care of a computer.	Computer, towel for covering a computer, a brush a cupboard to put computers in.	-Explain how to take care of a computer efficiently.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 2: 12- 16/1/2026	Lesson 5: Sitting posture when using a computer (2 periods)	-Identify a person with good or bad sitting posture -Demonstrate proper sitting posture when using a computer.	Posture, bending the back, Putting the computer on the lap	In pairs, Make exercises of appropriate sitting while using a computer	Images of a person well seated while using a computer, computer and projector	-Show good sitting postures while using a computer. -Identify good and bad sitting posture while using computer.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							

Week 3: 19- 23/1/2026	Lesson 6: Dangers of poor sitting posture while using a computer (2 periods)	State the dangers of poor sitting postures for a person using a computer Identify a person with symptoms of poor sitting postures while using a computer	Dangers, poor sitting Posture, Computer Back pain, tired arms, Headache	Group discussions on dangers to health from inappropriate sitting while using a computer.	Images of people having signs of not sitting well while using a computer. Those images are of a person with a bend back, a person with red eyes who is using a computer, projector and computer for showing those images.	-State dangers of poor sitting postures for a person using a computer. -Writing dangers of poor sitting posture while using a computer.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
Remedial session								
Week 4: 26- 30/1/2026	Lesson 7: End of unit assessment and remedial session	-Identify basic parts of a computer State simple uses of a computer -Demonstrate basic computer skills -Recognize the importance of computers in daily life -Assess students' understanding of basic computer concepts. -Reinforce proper computer use behavior.	Keyboard, computer, name, match, identify, write, posture	-Label desktop and laptop parts. -Discuss computer parts and uses. -Visit lab to observe computer parts. -Compare desktop and laptop. -Brainstorm ways to care for a computer. -Practice correct sitting posture. -Discuss dangers of poor posture.	-Image of a desktop computer and projector that show the parts of a desktop computer. -Images of a person well seated while using a computer, computer and projector	-Name different outer parts of desktop and laptop computer -Draw and shade parts of desktop and laptop computer. -Label parts of desktop and laptop computer -Show good sitting	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	

		-Provide feedback to guide future lessons or revision.				postures while using a computer. -Identify good and bad sitting posture while using computer.		
UNIT 4	PLANTS						Periods: 8	
Key unit competence		Name the main parts of a plant, tell their importance, and group plants by their use.						
Dates/ Weeks	Lesson title/ periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation
Week 5: 2-6/2/2026	Lesson 1: Main parts of the plant (2 periods)	-Identify parts of a plant -Tell the difference between the parts of a plant.	Plant, Roots, Stem, branches, leaves, flowers, fruits and grains.	Visit the school compound to observe the different parts of plants.	-Present plants, charts, flipcharts having plant drawings, picture book -Images of plants in student's book	-Naming parts of plants -Labeling parts of plants - Matching drawings of parts of plants to their names. -Drawing plant with its parts.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 6: 9-13/2/ 2026	Lesson 2: Importance of plants/ (2 periods)	-List the importance of plants.	Plants, food, fresh air, firewood, timber,	In groups, Discuss and group plants according to	Charts showing cows eating,	-Listing importance of plants.	- SET syllabus for Lower primary (REB, 2025)	

		-Sort plants by how we use them. -Take care of plants because they are important.	medicines, money, decoration, soil erosion.	their importance	, picture books or storybooks, videos or animations related to the importance of plants	-Identifying ways plants can be used in daily life.	-SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
Remedial session								
Week 7: 16-20/2/ 2026	Practical activities on the content of the unit/ (2 periods)	Practice the content of the unit	Roots, stem, branches, leaves, flower fruits	-Discuss and group plants according to their uses. -Draw and shade plants and its parts.	Images of plants, pictures of animals eating plants, real plants from school compound	-Drawing plant and name its parts.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
Remedial session								
Week 8: 23-27/2/ 2026	Lesson 3: End of unit assessment and remedial session (2 periods)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Roots, stem, Firewood, timber, branches Leaves, flowers, medicine, decoration Fruits	-Discuss and identify different importance of plants. -Draw and shade plants and its parts. -Draw a plant with the main parts and color each part of it.	Images of plants, pictures of animals eating plants, real plants from school compound	-Naming parts of plants -Labeling parts of plants - Matching drawings of parts of plants to their names. -Drawing plant with its parts.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	

						-Listing importance of plants. -Identifying ways plants can be used in daily life		
UNIT 5	WASTE AND HYGIENE						Periods: 6	
Key unit competence		Sort different types of waste and keep the environment clean.						
Dates/ Weeks	Lesson title/ periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation
Week 9: 2-6/3/2026	Lesson 1: Types of wastes/ (2 periods)	-Define the decomposing waste -Identify the decomposing waste	Decomposing wastes, plants, fruits, vegetables, dead animals	Discuss and brainstorm different types of waste. Walk in the school compound to collect different types of waste and put them in the right dustbin according to their types.	Waste materials, papers, charts, drawings of waste, pictures from student’s book	-Written activity on listing types of wastes. -Oral questioning on giving examples of composing wastes. -Sorting waste into different categories based on their types	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil’s book (REB, 2025) -SET P2 Teacher’ guide	
	Remedial session							

Week 10: 9-13/3/ 2026	Lesson 2: Non-decomposing wastes (2 periods)	-Explain the non-decomposing waste -Identify non-decomposing waste -Be careful not to get hurt by sharp things like broken bottles.	Non-decomposing wastes, metals, plastics	-Discuss and brainstorm different non-decomposing wastes	Waste materials: plastic bottles, charts and drawings of waste, pictures from student's books	-Written activity on giving and naming examples of non-decomposing wastes. -Sorting waste into different categories based on their types	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 11: 16-20/3/ 2026	Lesson 3: Toxic wastes (2 periods)	Identify toxic wastes Explain what toxic waste is	Toxic wastes , used batteries, dry cells, old medicines	Walk in the school compound to collect different types of wastes and put them in the right dustbin according to their types Discussion in groups about toxic waste they know.	Waste materials like old medicines, expired chemicals, and used dry cells. Charts and flip charts, drawings of toxic waste, picture from student's books	-Oral questioning on giving and naming toxic wastes. -Written activity on matching wastes to their types -Identifying toxic waste, they know.	- SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 12&13: 23/3-3/4/ 2026	END OF TERM 2 EXAMS							

TERM THREE

UNIT 5		WASTE AND HYGIENE						Periods: 6
Key unit competence		Sort different types of waste and keep the environment clean						
Dates/ Weeks	Lesson title/ periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observat ion
Week 1: 20-24/4/ 2026	Lesson4: Way of waste management (2 periods)	-Identify the ways of waste management -Explain the ways of waste management -Sweep and put waste in different dustbins.	Waste, management , separation	Use pictures, Charts and videos of learners cleaning their home and community Discuss in groups to differentiate types of waste and ways of waste management.	Brooms, pictures showing the dirty grounds and the house having long grasses around, charts showing materials used to clean, picture books	-Practical activity to clean the classroom and school ground. -Identifying ways of waste management.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
Week 2: 27/4- 1/5/2026	Lesson 5: Separating of waste/ (2 periods)	Identify the ways of managing the waste by separating them. Get used to sorting waste properly.	Separation, wastes	Organize cleaning activity of the classroom by collecting and sweeping all wastes on the floor and dispose them in separate and appropriate dustbins	Materials that are used to separate waste like dustbins, charts and flowcharts showing the materials used to show how to separate waste, pictures from student's books	-Practical activity on separation of different types of wastes -Oral questioning on giving simple ways to separate wastes using dustbins	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	

	Remedial session							
Week 3: 4-8/5/2026	Lesson 6: End of unit assessment and remedial session (2 periods)	-Identify types of waste. -Sort waste correctly. -Describe ways to manage waste.	Waste, decomposing, toxic, management , Separation, non-decomposing, metal glass	-Discuss and brainstorm different types of waste. -Sorting different waste according to their types. -Identifying ways of waste management	-Waste materials, papers, charts, drawings of waste, pictures from student's book, -Waste materials like old medicines, expired chemicals, and used dry cells. Charts and flip charts, drawings of toxic waste, picture from student's books	-Written activity on matching wastes to their types -Identifying toxic waste, they know. -Identifying ways of waste management. -Sorting waste into different categories based on their types	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
UNIT 6	LIGHT AND HEAT						Periods: 12	
Key unit competence		Identify and use sources of light and heat safely, and explain their importance in daily life.						
Dates/ Weeks	Lesson title/ periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation
Week 4: 11-15/5/2026	Lesson1: Sources of light/	List various sources of light	Sun, torch, fire, candle, bulbs, matchstick,	-Discuss in pairs to find out	Pressure lamp, fire, candle, kerosene	-Written activity on writing various	-SET syllabus for Lower	

	Period 1		lamp, fire wood	various sources of light. -Identifying sources of light found at their home. -Drawing different sources of light students know.	lantern, lamp, bulb, match stick, gas lamp,	sources of light. -Oral questioning on giving naming various sources of light. -Drawing sources of light. -Matching images of sources of light to their names	primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
Remedial session								
	Lesson 2: Meaning of darkness and shadow/ (1 period)	-Discover the source of darkness. -Differentiate darkness from shadow. -Explain where shadows come from	Darkness, light, Shadow, image	-Make a dark room using opaque materials like clothes. -Produce a shadow using the source of light (torch light, candle light). -Measure the height of shadow of a tree in school garden and at different hours of the day (morning, midday, evening).	Sun shown to the pupils by taking them outside the classroom; opaque, transparent, and translucent objects, pictures, flashcards or charts showing the trees under the sun making the shadow, manila paper with drawings of some object under the light	-Written activity on matching Darkness and shadow to their meanings -Oral questioning on giving differences between darkness and shadow	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	

					and in the shadow.			
Remedial session								
Week 5: 18-22/5/2026	Lesson 3: Importance of light on living things/ (1 period)	Explain the importance of light on living things	Light, see, Sunlight, growth, Plants	Discuss in pairs the importance of light. Make a dark room, then turn on light to see the change.	Pictures, flashcards or charts showing people using the light to write or read books, Walking during the night safely under public lighting.	-Written activity and Oral questioning on giving importance of light on living things	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
Remedial session								
	Lesson 4: Too much light and too little light (1 period)	-Discover the dangers of too much and too little light -Explain the ways of avoid the dangers of little light Use just the right amount of light when reading	Light, Sunglasses, too much light, too little light	Reading in room of too much light and too little light to observe the difference.	Pictures, flashcards or charts showing people reading under enough light and others that show people reading under light that is not enough.	-Written activity and oral questioning on identifying -Dangers of too much light and too little light	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
Remedial session								

Week 6: 25- 29/5/2026	Lesson 5: Source of heat (1 period)	List various sources of heat.	Sun, candle, lantern, electrical bulb, match stick, lamp, firewood	-Discuss in pairs to find out various sources of heat. -Drawing and shading different sources of heat.	Picture, charts and flashcard showing various sources of heat like sun, fire, stove, candle and others	-Written activity on listing and naming various sources of heat. -Matching images or drawing of sources of heat to their names. -Drawing and shading different sources of heat.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
	Lesson 6: Importance of heat (1 period)	-Understand the importance of heat -Identify the importance of heat	Heat, cooking, food , iron clothes	-Discuss in pairs the importance of heat. -Observation of cooking by using any source of heat used in the kitchen.	Picture charts and flashcard showing the sun, fire, stove, iron illustrating how they are used as an importance of heat	-Written activity and oral questioning on giving importance of heat	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							

Week 7: 1-5/6/2026	Lesson 7: Dangers of too much heat (1 period)	-Identify the dangers of heat -Be careful to stop accidents from heat	Heat, living organisms, cooking	-Discuss in pairs to find out dangers of too much heat. -Watching videos of dangers of heat	Picture charts and flashcard showing sun causing a drought, a house being burned by an electrical fire, a casserole burning on the charcoal stove, Videos showing bushes, houses, cars and other materials being burned by too much heat	-Written activity and Oral questioning to identify dangers of too much heat	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
	Lesson 8: Instrument to measure heat (1 period)	Identify instruments used to measure heat	Instrument, to measure, thermometer	-Discuss in pairs to find out Instrument to measure heat. -Practical activity of measuring temperature using thermometer.	A real thermometer, an image of different kinds of thermometer	-Written activity to identify instrument used to measure temperature of various objects (air, soil, water) -Drawing thermometer.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	

	Remedial session							
Week 8: 8- 12/6/2026	Lesson 9: Measuring body temperature using medical thermometer (1 period)	-Explain the steps followed when measuring body temperature. -Measure your body temperature regularly	To measure, thermometer, temperature	Experiment: Use medical thermometer (Calibrate the thermometer before using it, put it under arm pit, wait for at least two minutes, read the temperature), compare temperature readings for different pupils	A real thermometer, an image of a person checking his or her body temperature, a picture of a patient at the health center having his or her temperature measured	- Oral questioning on identifying and repeating steps to follow for measuring body temperature using medical thermometer	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	
	Remedial session							
	Lesson 10: Relationship between sources of light and sources of heat (1 period)	-Identify sources of light which are also sources of heat. -Identify objects that produce light but do not produce heat.	Sun, torch, firewood, electrical bulb, candle, lamps, light and heat	-Group discussions to identify light sources which are also heat sources, -Experiment: To put on different sources of light (candle, spirit lamp, electrical bulb) with the purpose of finding out the relationship between sources of light and sources of heat. -Experiment to establish the difference/relationship	Real objects physically present or pictures, charts and flashcards showing sun, fire, stove, stars, lamps, lantern, others.	-Written activity on identifying sources of light which are also sources of heat - Oral questioning on naming sources of light which cannot produce heat.	-SET syllabus for Lower primary (REB, 2025) -SET P2 Pupil's book (REB, 2025) -SET P2 Teacher' guide	

				between the light and heat using candle, spirit lamp and electric bulb				
	Remedial session							
Week 9: 15-19/6/2026	Lesson 11: End unit Assessment and remedial session (2 periods)	-Identify sources of light and heat. -Tell the importance of light and heat. -Sort natural and artificial sources. -Use correct terms when talking about light and heat. -Show safe ways to use heat.	Shadow, light, Torch, Sun, torch, firewood, electrical bulb, candle, lamps, light and heat	-Find out appropriate behavior to avoid the dangers of light. -Discuss in pairs the importance of light. -Discuss and name various sources of light and heat. -Find out the difference between darkness, shadow and light.
