

**SCHEME OF WORK
PRIMARY FOUR (P4)
SCIENCE AND ELEMENTARY TECHNOLOGY (SET)**

Teacher's name		Academic year	2025-2026
School name		No of students	
Class		Terms	
Subject	Science and Elementary Technology	Number of periods per week	

TERM ONE

	UNIT 1	OBJECTS PRODUCTION						Periods: 7
	Key unit competence	Make useful and safe objects using local materials and take care of them properly						
Dates/ Weeks	Lesson title/period s	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observati on/Rema rks
Week 1: 08-12/09/ 2025	Lesson 1: Making toys using wires (1 period)	- Identify types of wire and steps in toy making. - Shape and connect wire to form simple toy models.	Wire, Shaping, Bending, Connecting, Toy, Models, Safety	- Brainstorm types of wires; - Group discussion on best wires for toys; Practical work (make toy bicycle/doll); Workspace cleaning	Wires, pliers, wire cutters, sticks, bottle tops/lids, gloves	- Oral naming and explanation - Practical demonstration of toy making - Peer review / checking each other's work	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary,	

						- Remedial oral repetition of key words and steps	P4-P6 (REB, 2025)	
	Lesson 2: Making toys using clay (1 period)	- Understand clay properties and local figures to model. - Mold clay into animals and motorcycles using basic techniques.	Clay, Molding, Shaping, Figures, Animals, Motorcycle	- Brainstorm local clay uses; - Teacher demo on molding; - Pupils mold a cat/motorcycle; - Group sharing of models	Clay, water, sticks (for support), small tools (knife, shaping stick)	- Oral naming and explanation of clay types and uses - Observation of pupils' modeling techniques - Peer evaluation of finished clay models	- SET Pupil's Book, Primary 4 (REB, 2025). - SET Teacher's Guide, Primary 4 (REB, 2025). - SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 3: Making utility objects using sticks (1 period)	- Recognize suitable sticks to make utility objects. - Weave sticks to make a small functional utility object.	Sticks, Selection, Weaving, Basket, Utility	- Group discussion on suitable sticks; - Teacher demo on weaving; - Pupils weave small basket/object; - Display and feedback	Sticks, knife, glue, string/sisal, scissors	- Oral identification of suitable sticks - Observation of weaving process - Evaluation of finished basket/utility object for strength and functionality	- SET Pupil's Book, Primary 4 (REB, 2025). - SET Teacher's Guide, Primary 4 (REB, 2025). - SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 4: Making utility objects	- Identify banana fibre and understand	Banana fibre, Weaving, Mat, Dustbin,	- Brainstorm banana fibre uses; - Teacher demo weaving;	Banana fibres, needle, scissors,	- Oral identification of banana fibre and its properties	- SET Pupil's Book, Primary 4 (REB, 2025).	

	using banana fibre (1 period)	its use in weaving. - Weave banana fibre to produce simple utility items.	Durability, Function	- Group work making mat/dustbin; - Discussion on use and care	glue, sisal/rope	- Observation of pupils' weaving techniques - Assessment of finished mat/dustbin for functionality and durability	-SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 2: 15-19/09/ 2025	Lesson 5: Maintenance of utilities and learning objects (2 periods)	- Know the importance of cleaning and maintaining objects. - Perform simple cleaning and repairs on handmade items.	Cleaning, Repairing, Durability, Safety, Care, Maintenance	- Group discussion on importance of cleaning; - Pupils practice cleaning/repair; - Create poster/guide on care practices	Made objects (toys, mats, baskets), soap, water, cloths, glue	- Oral explanation of importance of cleaning and maintenance - Observation of pupils performing cleaning/repairs - Evaluation of posters/guides on care practices	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 6: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Review, Objects, Creativity, Safety, Teamwork, Presentation	- Pupils present objects they made; - Oral questions on steps and materials; - Teacher checks durability/safety; - Peer feedback	All made objects (wire, clay, sticks, banana fibre items)	- Presentation of finished objects with explanation - Oral questioning on steps, materials, and techniques - Observation and evaluation of object durability, safety, and creativity	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	

						- Peer assessment and feedback on group work and teamwork		
	UNIT 2	ICT BASICS						Periods: 11
	Key unit competence	Define different ICT terms used in the ICT domain and use them in correct contexts and manage files using the Sugar Journal and flash disk safely and responsibly.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Meaning of ICT (1 period)	- Define the term ICT and its roles. - Identify and give examples of communication tools and their use in daily life.	ICT, Communication tools, Phone, Computer, Email, Wi-Fi	- Group discussion on meaning of ICT - Brainstorm ICT tools at home and school - Give examples of communication tools and their use	XO Laptop, computer, projector, printed charts/posters	- Oral naming and explanation of ICT and its roles - Pupils give examples of communication tools in daily life - Teacher questioning and peer discussion	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 3: 22-26/09/ 2025	Lesson 2: Analog and digital data (1 period)	- Define analog and digital data in simple terms. - Identify the differences between	Analog data, Digital data, Clock, Thermometer, Computer files, Music	- Brainstorm examples of analog and digital data; - In pairs, draw a Venn diagram comparing analog and digital data	XO Laptop, computer, projector, printed charts/posters	- Pupils orally differentiate analog and digital data - Pupils present Venn diagrams comparing analog and digital data	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary,	

		analog and digital data using examples				- Teacher observation and Q&A	P4-P6 (REB, 2025)	
	Lesson 3: Internet related terms (1 period)	Define internet related terms such as Wi-Fi, internet, email, website, server, www, download, and upload	Wi-Fi, Internet, Email, Website, Server, WWW, Download, Upload,	- Group discussion on internet tools; - Explain terms and examples; - Demonstrate using email or website in class	XO Laptop, computer, projector, internet connection, printed charts/posters	- Pupils orally define internet-related terms - Pupils demonstrate simple use of email or website - Peer questioning and teacher observation	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 4: Hardware and software (2 periods)	Differentiate hardware and software with examples.	Hardware, Software, CPU, Monitor, Printer, Programs, Applications	- Group discussion on computer parts; - Classify items as hardware or software; - Teacher demo showing interaction between hardware and software	XO Laptop, computer, projector, printed charts/posters	- Pupils classify items as hardware or software orally - Pupils explain examples in writing or orally - Teacher-led oral questioning and peer review	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							

Week 4: 29/09 - 03/10/ 2025	Lesson 5: Sugar interface (2 periods)	- Use the Journal to view files and activities, delete and rename files - Practice safe and responsible use of the Journal when managing files.	Sugar journal, Opening/Closing journal, Managing files, Renaming, Deleting, Responsible use	- Teacher demo navigating Journal; - Pupils create, open, rename, delete activities; - Discuss safe and responsible use	XO Laptop, computer with Sugar interface, projector	- Pupils demonstrate file management in the Sugar Journal - Pupils explain steps orally while performing tasks - Teacher observation and feedback on safe practices	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 6: Using a flash disk (2 periods)	Use a flash disk safely to open, view and share files	Flash disk, Insert, Remove safely, Open, View, Save, Share, File management, Safety	- Teacher demo inserting/removing flash disk; - Pupils practice opening, saving, sharing files; - Discuss safe handling	Flash disk, XO Laptop, computer, projector	- Pupils demonstrate safe insertion and removal of flash disk - Pupils open, view, save, and share files correctly - Practical demonstration observed by teacher; peer feedback	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 5: 06 -10/10/ 2025	Lesson 7: End of unit assessment (2 periods)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	ICT, Analog/Digital data, Hardware/Software, Sugar Journal, Flash disk, Safety, File management	- Pupils present what they learned; - Demonstrate file management; - Oral Q&A; - Peer feedback	XO Laptop, computer with Sugar interface, flash disk, projector, printed charts	- Pupils present what they learned orally - Demonstration of file management using Sugar Journal and flash disk - Teacher observation, oral Q&A, and peer feedback	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	

	UNIT 3	GRAPHICS AND MULTIMEDIA						Periods: 9
	Key unit competence	Use basic graphic and multimedia tools to create simple drawings and open simple visual and audio content						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Starting Paint application (2 periods)	Open, Save and close Paint application	Paint, Open, Save, Close, Application, Workspace	- Teacher demo opening, saving, and closing Paint; - Pupils practice opening, saving, and closing	XO Laptop, computers with Paint, projector	- Oral naming and explanation of steps - Practical demonstration of opening, saving, and closing - Peer correction during practice - Teacher checklist of correct steps followed	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 6: 13 -17/10/2025	Lesson 2: Paint environment (2 periods)	Identify the menu and tools available in the Paint and their basic uses	Paint menu, Tools, Brush, Pencil, Shape, Text, Eraser, Image, Properties	- Teacher demo of Paint menu and tools; - Pupils identify tools and describe their use; - Group discussion on functions of each tool	XO Laptop, computers with Paint, projector, printed charts/posters	- Oral identification of tools and their uses - Matching tools with their functions (charts/posters) - Practical selection and use of tools - Group discussion presentations	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	

	Lesson 3: Drawing with Freehand tools (2 periods)	Draw objects by free hand using Pencil tool, Brush tool, Eraser tool and Color tools.	Pencil tool, Brush tool, Eraser, Color tools, Freehand drawing, Objects (rectangle, house, tree)	- Teacher demo drawing with Pencil, Brush, and Eraser; - Pupils draw simple objects freehand; - Apply colors	XO Laptop, computers with Paint, projector, color chart	- Practical drawing of simple objects (rectangle, house, tree) - Oral explanation of tools used - Peer comparison and feedback on drawings - Teacher observation of correct colour and eraser use	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 7: 20-24/10/2025	Lesson 4: Drawing using shapes (1 period)	Draw objects by using Paint shapes	Rectangle, Triangle, Line, Circle, Object design, paint tools, Colour	- Teacher demo using shapes to draw objects; - Pupils practice drawing objects with shapes; - Apply colors and resize	XO Laptop, computers with Paint, projector	- Practical drawing of objects using shapes - Oral naming of shapes and their functions - Group presentation of finished drawings - Teacher checklist of accuracy and use of colour/size	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 5: Multimedia (1 period)	List different multimedia programs and use them to open music, videos and pictures	Multimedia, Programs, Images, Music, Videos, Audio, Visual	- Teacher demo opening multimedia files (music, video, image); - Pupils practice opening files;	XO Laptop, computers with multimedia programs, projector,	- Oral listing of multimedia programs and uses - Practical opening of image, music, and video files	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025).	

			content, Importance	- Discuss importance in learning and communication	peakers/headphones, microphones	- Pair work to share multimedia experiences - Teacher observation of safe handling of multimedia tools	-SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 6: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Paint tools, Freehand drawing, Shapes, Multimedia, File handling, Creativity, Accuracy	- Pupils demonstrate drawing objects using freehand and shapes; - Open multimedia files; - Oral questions &Answers; - Peer feedback	XO Laptop, omputers with Paint and multimedia programs, rojector, peakers, icrophones	- Practical demonstration of drawing with freehand and shapes - Oral questions &Answers on Paint tools and multimedia programs - Group presentations of completed tasks - Peer feedback on creativity, accuracy, and use of media - Teacher rubric-based evaluation of competence	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	UNIT 4	PROGRAMMING FOR CHILDREN						Periods: 16
	Key unit competence	Design and construct geometric shapes in Turtle art activity and create animations using Scratch and PictoBlox Programming						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks

	Lesson 1: Opening, saving and closing Turtle blocks (1 period)	- Open, Save and close properly a Turtle block program - Identify the Turtle Blocks and drag them - Explain why saving work is important before closing a program.	Turtle Blocks, Open, Save, Close, Drag, Workspace, Importance of saving	- Teacher demo opening, saving, closing Turtle blocks; - Pupils practice opening, saving, and closing; - Identify and drag blocks	XO laptop, computers with turtle Art, projector	- Teacher observation of pupils opening, saving, and closing Turtle Art correctly - Practical demonstration by pupils saving before closing - Oral questioning on the importance of saving work	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 8: 27-31/10/2025	Lesson 2: Elements of the Turtle Art Window (2 periods)	- Explain the function of each element in the Turtle Art interface. - Locate and select blocks from the palette to use in the workspace.	Turtle Art interface, Main toolbar, Palette toolbar, Workspace, Blocks,	- Teacher demo of Turtle Art window elements; - Pupils identify functions of elements; - Practice selecting blocks from palette to use in workspace	XO laptop computers with turtle Art, projector	- Identification of main parts of Turtle Art window through questioning - Practical task: pupils select blocks from the palette and place them in workspace - Peer assessment: pupils explain functions of elements to a partner	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	

	Lesson 3: Drawing shapes using Turtle Art (2 periods)	Use Turtle Art commands to draw basic shapes like a square, circle, and rectangle.	Turtle Art commands, Square, Rectangle, Circle, Sequence, Blocks	- Teacher demo drawing shapes; - Pupils practice drawing square, rectangle, circle using correct sequence of blocks	XO laptop, computers with turtle art, projector	- Practical exercise: pupils draw a square, rectangle, and circle using correct block sequence - Teacher checklist of accuracy in shapes and sequence of blocks - Peer feedback on drawn shapes	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 9: 03-07/11/ 2025	Lesson 4: Opening, Saving, and Closing Projects in Scratch (2 periods)	- Identify the main parts of the Scratch window - Save and close the Scratch program safely after saving the work.	Scratch window, Open, Save, Close, Workspace, project	- Teacher demo opening, saving, closing Scratch projects; - Pupils practice safe file handling	XO laptop, computers with scratch, projector	- Observation of pupils opening, saving, and closing Scratch projects - Short oral questions answers on parts of the Scratch window - Practical demonstration: pupils save projects with correct names	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 5: Making animations in Scratch (2 periods)	Use different Scratch blocks to create a simple animation.	Scratch blocks, Animation, Motion, Looks, Events,	- Teacher demo creating simple animation; - Pupils practice connecting blocks to animate sprites	XO laptop, Computers with scratch, Projector	- Pupils create a simple animation using motion, looks, and events blocks - Teacher checklist on proper connection of	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025).	

			Sequence, Sprite			blocks and smooth animation - Peer review: pupils present animations and receive feedback	-SET syllabus Upper Primary, P4-P6 (REB, 2025)	
Remedial session (1 period)								
Week 10: 10-14/11/ 2025	Lesson 6: Adding and Coding a Background (Part A & B) (2 periods)	- Use looks and events blocks to program actions related to the background. - Switch between different backgrounds during an animation or project.	Backgrounds looks blocks, Events blocks, Switching backgrounds, Animation	Teacher demo coding background changes; Pupils practice adding and switching backgrounds in Scratch projects	XO laptop, computers with scratch, projector	- Practical exercise: pupils add and switch backgrounds during an animation - Teacher observation of correct use of looks and events blocks - Oral questioning on steps to switch backgrounds	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
Remedial session (1 period)								
Week 11: 17-21/11/ 2025	Lesson 7: Robotics (2 periods)	Explain a robot and the use of its different parts	Robot, Parts of a robot, Movement, Commands, Control	- Teacher demo robot parts and movements; - Pupils identify robot parts and practice simple movements	XO laptop, computers with robot simulations or real robots, projector,	- Question-and-answer session on robot parts and their functions - Practical demonstration: pupils control simple robot	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025).	

					pictures/videos of robots	movements (real or simulated) - Group assessment: pupils discuss roles of different robot parts	-SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 8: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Turtle Art, Scratch, Animations, Backgrounds, Robotics, Commands, Creativity	- Pupils demonstrate Turtle Art drawings, - Scratch animations, background coding, and basic robot movements; - Oral questions answers; - Peer feedback	XO Laptop, computers with turtle art and Scratch, projector, speakers, robots (simulated or real)	- Practical demonstration of Turtle Art drawings, Scratch animations, and background coding - Pupils present projects (Turtle Art + Scratch + simple robotics) - Oral questions to assess understanding of key concepts - Peer feedback on creativity, accuracy, and teamwork	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	UNIT 5	AIR, WIND AND SOUND					Periods: 14	
	Key unit competence	Explain the importance of air, wind, and sound, their uses and dangers, and learn how to protect yourself from loud noises and the environment.						
	Lesson title/ periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1:	Identify properties of air	Air, Weight, Space,	- Demonstrate air has weight, takes up space, and can be	Balloons, syringes, beam/electr	- Observation checklist during experiments	- SET Pupil's Book, Primary 4 (REB, 2025).	

	Main Properties of air (1 period)		Compressibility	compressed using balloons, syringes, or balance; - Pupils practice simple experiments	onic balance	(balloons, syringes, balances) - Oral questioning on properties of air - Pupils demonstrate experiments showing weight, space, compressibility	-SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 12: 24-28/11 /2025	Lesson 2: Composition of air (1 period)	- Explain the composition of air. - Appreciate the importance of air in our environment	Oxygen, Nitrogen, Carbon dioxide,	- Draw diagrams showing air composition; - Conduct simple experiments proving oxygen's importance for burning; - Group discussion on air importance	Diagrams/candles, transparent cups, open containers	- Drawing and labeling diagrams of air composition - Oral questioning on roles of oxygen, nitrogen, CO ₂ , other gases - Observation of practical experiments demonstrating oxygen's importance for burning	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 3: Dangers of components of air (2 periods)	- Explain the dangers of components of air and how to	Carbon dioxide (CO ₂), Carbon monoxide (CO),	- Conduct experiments showing dangers of CO and CO ₂ ; - Discuss preventive measures;	Candles, cups, small animals (e.g., cockroach),	- Teacher observation of experiments on CO and CO ₂ effects - Oral Q&A on dangers and preventive measures	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025).	

		prevent them - Design an experiment to identify the side effects of Carbon monoxide	Pollution, Prevention, Safety	- Observe plant or animal reactions in controlled experiments	boxes, charts	- Group discussion and reporting of experimental findings	-SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 4: Wind and its types (1 period)	- Identify the types of wind - Compare the types of winds	Wind, Breeze, Storm, Observation, Comparison	- Observe or describe different types of wind; - Measure and compare wind speed using simple tools (pinwheel, wind vane); - Discuss characteristics of each wind type	Pinwheel, wind vane, small fans, charts	- Observation checklist for practical measurement of wind speed (pinwheel, wind vane) - Oral questioning on wind types and characteristics - Group discussion on comparisons of different winds	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 13: 01- 05/12/ 2025	Lesson 5: Uses of air and wind (1 period)	Explain the importance of air and wind in the environment	Air, Wind, Uses, Environment, Daily life	- Collect millet/sorghum; - Demonstrate winnowing using wind; - Discuss other uses of air and wind	Winnower, millet, sorghum, small fans, charts	- Observation of practical demonstration (winnowing, airflow) - Oral questioning on uses in daily life and environment	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary,	

						- Assessment of group discussion and reporting of findings	P4-P6 (REB, 2025)	
	Lesson 6: Dangers of wind and its prevention (1 period)	Show concern for dangers brought by strong wind and how to overcome them.	Strong wind, Dangers, Safety, Prevention, Planting trees	- Visit areas affected by strong wind; - Observe damages; - Discuss safety measures; - Create posters/models showing prevention	Charts, cardboard, posters, photos of wind damage, trees	- Observation during field visits to affected areas - Assessment of posters/models showing prevention measures - Oral questioning on safety measures and prevention strategies	- SET Pupil’s Book, Primary 4 (REB, 2025). -SET Teacher’s Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 7: Nature and production of Sound (2 periods)	Explain the nature and production of sound.	Sound, Noise, Sources, Production, Hearing	- Create simple telephones with string/boxes to show sound production; - Discuss sources of sound	String, boxes, charts, small objects making sound	- Observation of practical sound experiments (string telephones) - Oral questioning on sound sources and production - Group discussion assessment on findings	- SET Pupil’s Book, Primary 4 (REB, 2025). -SET Teacher’s Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 14 & 15: 08 - 19/12	END OF TERM 1 EXAMS							
TERM TWO								

Dates/weeks	UNIT 5	AIR, WIND AND SOUND						Periods: 5
	Key unit competence	Explain the importance of air, wind, and sound, their uses and dangers, and learn how to protect yourself from loud noises and the environment.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 1: 05-09/01/2026	Lesson 8: Propagation and reflection of sound (2 periods)	- Explain the sound propagation - Design and use a device showing that the sound travels through a medium	Sound propagation, Medium, Reflection, Echo	- Create simple telephones using string and boxes to show propagation; - Use tubes/pipes to show reflection; - Discuss results	String, boxes, tubes/pipes, mirrors	- Observation of practical experiments (sound travel through string, reflection in tubes) - Oral questioning on propagation and reflection concepts - Group demonstration and explanation of results	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Lesson 9: Noise and its effects (1 period)	- Distinguish sound from noise - Identify the damaging effects of noise on hearing system.	Noise, Sound, Hearing, Harm, Damage	- Distinguish sound from noise; - Identify sources of noise; - Discuss harmful effects on hearing	Charts, examples of noisy objects, audio clips	- Observation of pupils distinguishing sound from noise using examples and audio clips - Oral questioning on harmful effects of noise on hearing - Group discussion and reporting of findings	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	

	Lesson 10: Protection of ears from noise (1 period)	- Explain how to protect ears from noise - Be careful and avoid long exposure to harmful noise	Ear protection, Noise prevention, Safe listening	Discuss and demonstrate ways to protect ears: earplugs, limiting headphones, creating quiet zones	Ear protection tools, headphones, charts	- Observation of demonstrations using earplugs, headphones, and creating quiet zones - Oral questioning on safe listening practices - Pupils demonstrate and explain ear protection methods	- SET Pupil's Book, Primary 4 (REB, 2025). -SET Teacher's Guide, Primary 4 (REB, 2025). -SET syllabus Upper Primary, P4-P6 (REB, 2025)	
	Remedial session (1 period)							
Week 2: 12-16/01/2026	Lesson 11: End of unit assessment (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Air, Wind, Sound, Noise, Protection, Safety	- Pupils demonstrate experiments and practical activities; - Oral questions answers; - Group discussions; Posters or models	All previous materials (charts, soil, boxes, string, fans, etc.)	- Observation of pupils demonstrating experiments and practical activities (air, wind, sound) - Oral questions answers covering all key concepts (Air, Wind, Sound, Noise, Protection, Safety) - Group discussions, creation of posters or models, and peer feedback	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	UNIT 6	SOIL						Periods: 12
	Key unit competence	Explain what soil is, describe its uses and importance, and demonstrate care for protecting and using soil wisely						

	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Definition and types of soil (1 period)	-Define soil -Mention the types of soil	Soil, Types of soil, Loam, Clay, Sand	- Teacher defines soil and explains types; - Pupils classify soil samples by type; - Group discussion on where each soil is found	Loam, clay, sandy soil samples, charts, small stones	- Oral questioning and explanations - Practical classification of soil samples - Group discussion on types of soil	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 2: Composition of soil (2 periods)	-Identify the components of soil. -Describe the composition of soil.	Soil composition, Minerals, Air, Water, Humus	- Teacher demonstrates components using soil jar test; - Pupils observe and record layers; - Group discussion on importance of each component	Soil jar, water, small bottles, humus, sand, loam, clay	- Observation and recording of soil jar test layers - Oral description of soil components - Group discussion on the importance of each component		
	Remedial session (1 period)							
Week 3: 19-23/01/2026	Lesson 3: Uses of soil (1 period)	Mention the uses of soil. Explain how soil is used in daily life.	Uses of soil, Agriculture, Construction, Plant growth, Daily life	- Pupils work in pairs to list uses of soil; - Teacher guides discussion on practical applications of soil in daily life	Soil samples, charts, paper, pencils	- Pair work listing soil uses - Oral explanations of practical applications - Group reporting and discussion	SET syllabus P4-P6 (REB 2025) Science and Elementary Technology, Pupil's Book,	

	Lesson 4: Characteristics of fertile soil (1 period)	Explain the characteristics of fertile soil.	Fertile soil, Humus, Water retention, Nutrients, Texture	- Teacher demonstrates soil characteristics; - Pupils test soil for water retention, texture, and humus; - Group discussion on indicators of fertility	Soil samples, water, small jars, charts, humus	- Practical testing for water retention, texture, and humus - Oral description of indicators of fertility - Group discussion and comparison	Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025);	
	Lesson 5: Soil erosion and its causes (2 periods)	- Define soil erosion - Describe the causes of soil erosion	Soil erosion, Causes, Agents, Water, Wind, Human activity	- Teacher explains soil erosion and causes; - Pupils observe local examples or photos; - Group discussion on human and natural agents	Charts, photos of eroded areas, local field observation	- Oral explanation of causes and agents of soil erosion - Observation of local examples or photos - Group discussion on natural and human causes	Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							
Week 4: 26-30/01/2026	Lesson 6: Types of erosion (2 periods)	-Mention and write short notes on the types of soil erosion. -Develop awareness of the impact of erosion.	Splash erosion, Sheet erosion, Rill erosion, Gully erosion	- Teacher explains types; - Pupils write short notes and label diagrams; - Field observation of local erosion types	Charts, diagrams, markers, field observation	- Writing short notes and labeling diagrams - Oral questioning on types of erosion - Field observation and discussion	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's	

	Lesson 7: Prevention of soil erosion (2 periods)	-Identify methods and techniques of erosion prevention -Show concern to prevent soil erosion	Prevention methods, Planting trees, Terracing, Avoid deforestation, Bushfires, Overgrazing	- Pupils design models/posters showing erosion prevention; - Practical work like planting trees, making mini-terraces; - Discussion on preventive measures	Charts, cardboard, small plants, gardening tools, soil samples	- Design of models or posters showing preventive measures - Practical work like planting trees or terracing - Group discussion and reporting	Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							
Week 5: 02-06/02/2026	Lesson 8: End of unit assessment (1 period)	-Assess the acquired competences. -Demonstrate the achievement of the key unit competence	Soil, fertile soil, erosion, prevention, composition, uses	- Pupils demonstrate classification, composition tests, fertility tests, and erosion prevention methods; - Oral questions answers; - Group discussions	Soil samples, charts, diagrams, small plants, gardening tools	- Demonstration of soil classification, composition tests, and fertility tests - Practical application of erosion prevention methods - Oral questions & answers and group discussions	SET syllabus P4-P6 (REB 2025) Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025);	
	UNIT 7	ANIMALS CLASSIFICATION					Periods: 10	
	Key unit competence	Classify the animals according to how animals breathe, move, eat and have babies and show care and curiosity about animals and their role in our world.						

	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Identification of various animals (1 period)	Identify and name different types of animals found in their environment.	Animals, Environment, Common animals	- Identify and name different animals in surrounding - Group discussion on animal types	Animal pictures, drawings, flash cards	- Oral questioning on animal names - Group discussion on types of animals - Observation and naming of animals in surroundings	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	
	Lesson 2: Classification of animals according to the backbone (1 period)	State the difference between animals with a backbone and without a backbone.	Vertebrates, Invertebrates, Backbone	- State differences between animals with and without backbone; - Sort animal pictures into vertebrates and invertebrates	Flash cards, animal pictures, diagrams	- Sorting animal pictures into vertebrates and invertebrates - Group discussion on differences - Oral explanation of classification	Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 3: Classification of animals according to the respiration mode (1 period)	Classify animals based on how they breathe and explain why.	Lungs, Gills, Skin, Spiracles	- Classify animals based on how they breathe; - Explain reasoning in groups	Diagrams, live insects, animal pictures	- Classify animals by breathing method (lungs, gills, skin, spiracles) - Group reasoning and explanation - Observation of diagrams or live insects	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	

	Remedial session (1 period)							
Week 6: 09-13/02/ 2026	Lesson 4: Classificatio n of animals according to the locomotion mode (2 periods)	Group animals based on their movement patterns using visual aids or demonstration s.	Walking, Crawling, Flying, Swimming, Hopping/Jum ping	- Group animals by movement patterns; - Role-play animal locomotion	Open space, charts, pictures	- Role-play animal movements (walk, crawl, fly, swim, hop/jump) - Group sorting by movement type - Oral description and discussion	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 5: Classificatio n of animals according to the feeding mode (2 periods)	Categorize animals based on their diet using examples from daily life	Herbivores, Carnivores, Omnivores, Insectivores, Granivores	- Categorize animals by diet; - Give examples from daily life	Flash cards, animal pictures, diagrams	- Categorize animals by diet (herbivores, carnivores, omnivores, insectivores, granivores) - Provide examples from daily life - Group discussion and reasoning		
	Remedial session (1 period)							
Week 7: 16-20/02/ 2026	Lesson 6: Classificatio n of animals according to their reproductiv e mode (2 periods)	Understand that some animals lay eggs while others give birth.	Laying eggs, Giving birth, Reproduction	- Understand and explain reproductive modes; - Sort animals accordingly	Animal pictures, charts, diagrams	- Sorting animals by reproduction type (laying eggs or giving birth) - Oral explanation of reproductive modes	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	

						- Group discussion and observation of charts	Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025);	
	Lesson 7: End of unit assessment and remediation (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Vertebrates, invertebrates, respiration, locomotion, feeding, reproduction	- Pupils classify and describe animals using all criteria; - Draw or label diagrams; - Group discussions	All previous aids (flash cards, pictures, charts, drawing paper)	- Practical classification using all criteria (backbone, respiration, locomotion, feeding, reproduction) - Drawing and labeling animal diagrams - Oral questioning and group discussions	SET syllabus P4-P6 (REB 2025)	
	UNIT 8	RABBITS AND CHICKENS MANAGEMENT						Periods: 17
	Key unit competence	To describe how to care for rabbits and chicken, choose healthy animals, build proper shelters, feed them correctly, protect them from diseases, show interest and care in raising them for home and community benefits.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Conditions of a good rabbit hutch (1 period)	Explain the conditions of a good rabbit's hutch	Hutch, space, ventilation, cleanliness, safety, roof, wire mesh	- Visit/observe rabbit hutches; - Discuss features of a good rabbit hutch	Rabbit hutch, charts, pictures	- Observe pupils during hutch visits and discussions. - Ask oral questions about ventilation, cleanliness, space, and safety.	Science and Elementary Technology, Pupil's book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's	

						- Evaluate ability to identify key features of a good hutch.	Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
Remedial session (1 period)								
Week 8: 23-27/02/ 2026	Lesson 2: Characteristics of good rabbits (1 period)	Outline the characteristics of good rabbits to rear	Doe (female), Buck (male), breed, color, coat, age, health	Observe rabbits; Identify healthy traits in male and female rabbits	Live rabbits, flash cards, rabbit cages/hutches, pictures, Audio visual	- Assess observation skills of live rabbits. - Check pupils' ability to identify healthy traits in male and female rabbits. - Oral questioning and matching exercises with flash cards.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025);	
	Lesson 3: Criteria for choosing rabbits to rear. (1 period)	Choose good rabbits to rear	Breed, size, colour, coat, age, health, environment	Group discussion on selection criteria; Match traits with correct choices	Rabbit pictures, flash cards	- Evaluate pupils' selection of rabbits based on breed, coat, colour, age, and health. - Group discussion contributions and matching exercises.	SET syllabus P4-P6 REB (2025) Science and Elementary Technology, Pupil's book, Primary 4 (REB 2025);	
	Lesson 4: Proper feeding of rabbits (1 period)	Practice the proper feeding of rabbits	Grass, hay, pellets, vegetables, clean water, avoid	- Observe feeding practice; - Discuss good/bad feeds	Rabbit feeds, charts	- Observe practical demonstrations of feeding. - Assess understanding of safe and nutritious		

			poisonous plants			foods versus harmful feeds. - Oral questioning and participation in discussions.	SET syllabus P4-P6 (REB 2025)	
	Lesson 5: Rabbit health and common diseases. (1 period)	- Maintain good health for the rabbits - Outline the common diseases of rabbits	Health, hygiene, cleanliness, myxomatosis, snuffles, prevention, treatment	- Research/discussion on rabbit diseases; - Prevention measures	Posters, charts, books	- Assess ability to name and describe common rabbit diseases. - Evaluate suggested prevention and treatment measures. - Group research presentation and poster evaluation.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							
Week 9: 02-06/03/2026	Lesson 6: Importance of rabbit farming (1 period)	Describe the importance of rabbits	Meat, fur, manure, income, pets, project	Group research & discussion; Share findings	Pictures, flip charts	- Evaluate discussion contributions on benefits (meat, fur, manure, income, pets). - Check understanding through oral questions or short written notes.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	

							Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 7: Conditions of good chicken house (1 period)	-Identify features of a good chicken house -Construct a good chicken house	Chicken house, ventilation, light, protection, space, nest, perch	- Observe chicken houses; - Group discussion; Build model	Pictures/Ph otographs of chicken house real materials, model of chicken house	- Observe pupils' identification of house features during visits. - Evaluate model chicken house construction for correct design and features. - Oral questioning on space, light, ventilation, protection, nest, and perch.		
	Lesson 8: Types of chicken breeds (2 periods)	- Explain the types of chicken breeds. -Identify the qualities of a good chicken breed to rear	Layers, broilers, dual- purpose, productivity, egg, meat	- Observe pictures/models; - Match breeds with features	Chicken pictures, flash cards	-Assess identification of layers, broilers, and dual- purpose breeds. -Evaluate matching exercises of pictures/models to breed types and qualities.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							

Week 10: 09-13/03/2026	Lesson 9: Reproduction of chickens (2 periods)	-Identify the steps of chicken reproduction -Apply basic techniques to chicken reproducing	Egg laying, incubation, brooding, chicks	Role play: hen incubating and caring for chicks	Hen, eggs, charts, drawings	- Observe participation in role play of egg-laying, incubation, and brooding. - Evaluate pupils' understanding through diagrams or oral explanation.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 10: Proper feeding of chicken (2 periods)	- Identify different types of chicken feeds - Explain how to feed chicken properly	Grains, supplements, water, hygiene, feeding troughs	- Observe feeding practice; - Discuss types of feeds	Chicken feeds, charts	- Observe practical demonstration of feeding techniques. - Check knowledge of feed types, water provision, and hygiene.		
	Remedial session (1 period)							
Week 11: 16-20/03/2026	Lesson 11: Chicken diseases and their prevention (2 periods)	- List chicken diseases - Identify ways of preventing chicken diseases.	Newcastle, coccidiosis, fowl pox, hygiene, vaccination	Research/discussion on common diseases; Suggest preventive measures	Charts, posters, books	- Assess ability to list common diseases (Newcastle, coccidiosis, fowl pox). - Evaluate proposed preventive measures and hygiene practices. - Oral questions, group discussions, and poster evaluation.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's	

	Lesson 12: Importance of chicken farming (1 period)	Give the importance of keeping chickens healthy.	Meat, eggs, income, manure, family diet	- Group discussion and presentation; - Writing/drawing	Flip charts, pictures	- Evaluate pupils' ability to explain benefits (meat, eggs, income, manure, family diet). - Check group presentation and drawings for understanding.	Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 13: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Hutch, rabbit breeds, feeding, diseases, chicken house, breeds, reproduction, prevention	- Pupils classify, describe, and demonstrate all competences; - Group presentations	All previous materials	- Practical demonstration of feeding, caring, and maintaining hutch/chicken house. - Oral questions answer son breeds, reproduction, diseases, and preventive measures. - Group presentation evaluating overall competence in rabbit and chicken management.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							
Week 12 & 13: 23-30/03/	End of term 2 exams							

2026								
TERM THREE								
Dates/weeks	UNIT 9	PLANTS GERMINATION						Periods: 10
Week 1: 20-24/04/ 2026	Key unit competence	Describe how seeds grow into plants, identify plant parts and their roles, carry out simple planting activities, show care and curiosity about how plants grow and why they are important.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Seed germination and its conditions (2 periods)	-Define germination. -Describe condition of germination	Germination, Water, Oxygen, Temperature, Light, Soil	In groups, carry out an investigation on germination of beans and maize seeds and discuss what happens when a seed is planted.	Beans and maize seeds, transparent pots, water	- Oral questioning on the definition of germination and its conditions. - Observation of pupils' setup and participation in germination experiments. - Group discussion contributions on what they observed.	Science and Elementary Technology, Pupil's Book, Primary 4 (2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (2025);	
	Lesson 2: Types of germination (2 periods)	Differentiate between types of germination using	Epigeal germination, Hypogeal germination	- Make observations on germinating seedlings of maize and beans;	Seeds, diagrams, real seedlings	- Accuracy in classifying seedlings as epigeal or hypogeal.	SET syllabus P4-P6 (2025)	

		examples or diagrams.		- Classify as epigeal or hypogeal.		- Correct labeling of diagrams. - Participation in group discussions explaining their reasoning.		
Remedial session (1 period)								
Week 2: 27/04-01/05/2026	Lesson 3: Stages of germination (2 periods)	Describe the main stages of seed germination	Seedling, Radicle, Plumule, Cotyledon	In a project, carry out an investigation on stages of germination for beans and maize seeds; record observations.	Seeds, planting trays, water	- Accuracy of recorded observations for each stage of germination. - Correct sequencing of the stages. - Oral explanations of what happens at each stage.	Science and Elementary Technology, Pupil's Book, Primary 4 (2025);	
	Lesson 4: Parts of the plant (2 periods)	Label the parts of a plant in a diagram or real-life specimen	Root, Stem, Leaf, Flower, Fruit	Visit school surroundings to observe, name, and label different parts of plants.	Diagrams, live plants, drawing paper, crayons	- Correct identification and labeling of plant parts. - Participation in field observation and discussion. - Responses to oral questions about plant parts.	Science and Elementary Technology, Teacher's Guide, Primary 4 (2025); SET syllabus P4-P6 (2025)	
	Remedial session (1 period)							
Week 3: 04 - 08/05/2026	Lesson 5: Functions of parts of the plant (1 period)	State the function of each plant part	Root, Stem, Leaf, Flower, Fruit	Discuss and write the functions of each plant part using diagrams or real plants.	Diagrams, live plants, chart	- Ability to explain the function of each plant part correctly. - Matching plant parts to their functions in	Science and Elementary Technology, Pupil's Book,	

						diagrams or real plants. - Contribution to group discussions on plant roles.	Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 6: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Root, Stem, Leaf, Flower, Fruit	Conduct written, oral, and practical assessment activities on germination and plant parts.	Seeds, diagrams, pots, charts	- Practical demonstration of seed germination skills. - Written or oral assessment on plant parts and functions. - Accurate labeling and sequencing of germination stages. - Overall demonstration of competence in understanding and applying knowledge.		
	UNIT 10	HUMAN SENSORY ORGANS					Periods: 10	
	Key unit competence	Name the five sense organs, describe their functions, practice ways to care for them, and show concern for keeping their sense organs healthy and safe.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Functional mechanism of all	- Identify and describe the functional mechanism	Eyes, ears, nose, tongue, skin, senses, functions	- Play interactive games exploring each sensory organ;	Wall charts, objects producing	- Observe pupils correctly matching sense organs to their functions.	Science and Elementary Technology, Pupil's Book,	

	sensory organs (1 period)	of sensory organs - Match organs to functions.		- Match organs with their functions using charts or real objects	sound, taste, smell, touch samples	- Oral questioning on each organ's role. - Participation in interactive games to demonstrate understanding.	Primary 4 (2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (2025); SET syllabus P4-P6 (2025)	
	Lesson 2: Function and maintenance of skin (1 period)	- Understand skin's role and importance of hygiene. - Demonstrate skin care practices.	Skin, protection, cleanliness, hygiene, maintenance	- Discuss the functions of skin; - Demonstrate proper cleaning and care practices in pairs	Water, soap, towels, charts	- Observe pupils demonstrating proper cleaning and care practices. - Oral questions on skin functions and hygiene importance. - Peer assessment during pair demonstrations.		
	Remedial session (1 period)							
Week 4: 11-15/05/2026	Lesson 3: Function and maintenance of tongue (1 period)	- Know tongue functions and hygiene importance. - Identify tastes; practice tongue cleaning.	Tongue, Taste buds, Sweet, Sour, Bitter Salty, Hygiene	- Observe wall charts; taste different food samples to locate different parts; - Brush and clean tongue properly	Wall charts, Food samples, Tooth brushes	- Check correct identification of taste zones on the tongue. - Observe proper tongue cleaning technique. - Oral or written questioning on tongue functions.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's	

	Lesson 4: Function and maintenance of nose (1 period)	- Learn nose functions in smell and breathing. - Practice nose hygiene and care.	Nose, Smell, Breathing, h Hygiene, Care	- Use sense of smell in simple tasks; - Discuss ways to keep nose clean and protected	Cotton, aromatic samples, charts	- Observe pupils performing nose hygiene correctly. - Oral questioning on nose function in smell and breathing. - Participation in simple smell-based activities.	Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 5: Function and maintenance of ear (2 periods)	- Understand ear roles in hearing and balance. - Show safe ear cleaning and protection habits.	Ear, Hearing, Balance, Hygiene, Loud noise	- Conduct group research; - Demonstrate safe ear cleaning; - Explain how to avoid loud noise	Wall charts, Sound-producing objects, Ear models	- Observe safe ear cleaning practices. - Oral questioning on hearing, balance, and noise prevention. - Group discussion participation on ear care methods.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	
	Remedial session (1 period)							
Week 5: 18-22/05/2026	Lesson 6: Function and maintenance of eye (2 periods)	- Recognize eye function and need for protection. - Demonstrate eye care and healthy habits.	Eye, Vision, Hygiene, Care, Prevention	- Discuss eye care routines; - Practice cleaning and safe habits; - Demonstrate ways to prevent eye problems	Wall charts, magnifying lens, posters	- Observe correct eye care and hygiene practices. - Oral or written questions on eye function and common problems. - Participation in eye protection demonstrations.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's	

	Lesson 7: End of unit assessment (2 periods)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Eyes, ears, nose, tongue, skin, senses, hygiene, care	- Conduct written, oral, and practical activities covering all sense organs; - Evaluate hygiene and care practices	Wall charts, food samples, brushes, sound objects	- Practical demonstration of care for all five sense organs. - Written and oral questions covering function, hygiene, and care. - Evaluate participation in activities and understanding of sense organs.	Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							
Week 6: 25-29/05/ 2026	UNIT 11	HUMAN SKELETON						Periods: 8
	Key unit competence	Name the main parts of the skeleton, explain what it does, practice how to keep bones safe and healthy and show care in preventing and responding to bone accidents.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
	Lesson 1: Main parts and major bones of the skeleton (2 periods)	Identify the main parts and major bones of the human skeleton	Skull, arm, leg, trunk, humerus, radius, ulna, femur, tibia, fibula	- Observe skeleton model and wall charts; - Draw and label the human skeleton in exercise books	Skeleton model, wall charts, pencils	- Observe pupils identifying and naming skeleton parts and major bones correctly on models and charts. - Check labeled drawings for accuracy. - Oral questioning on specific bones (e.g., humerus, femur, tibia).	Science and Elementary Technology, Pupil's Book, Primary 4 (2025); Science and Elementary Technology, Teacher's	

	Lesson 2: Functions of the skeleton system (2 periods)	Explain the different functions of the skeleton	Support, protection, movement, blood cell production	- Group discussion using diagrams; - Relate skeleton functions to daily activities; - Demonstrate examples of support and movement	Skeleton model, diagrams	- Ask pupils to explain skeleton functions in oral or written form. - Evaluate participation in group discussions and demonstrations showing support, protection, and movement. - Observe pupils linking skeleton functions to daily activities.	Guide, Primary 4 (2025); SET syllabus P4-P6 (2025)	
Week 7: 01-05/06/2026	Lesson 3: Main types of joints: Movable and non-movable joints (2 periods)	Name and describe the two main types of joints	Movable joints, non-movable joints, elbow, knee, skull	- Demonstration using body movements; - Identify movable and non-movable joints on body and model	Charts, skeleton model, diagrams	- Observe pupils correctly identifying movable and non-movable joints on themselves or models. - Oral questions on examples of each type of joint. - Evaluate participation in demonstration of joint movements.	Science and Elementary Technology, Pupil's Book, Primary 4 (2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (2025);	
	Lesson 4: Caring for the skeleton (1 period)	State ways to keep bones healthy	Calcium, exercises, safe play, posture, bone health	- Demonstrate healthy sitting positions; - Practice physical exercises; - Role play safe practices	Charts, exercise space, props	- Observe pupils practicing healthy habits (posture, exercises, safe play). - Check for correct demonstration of	SET syllabus P4-P6 (2025)	

						exercises and role plays on skeleton care. - Oral or written questions on ways to maintain bone health.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	
	Lesson 5: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Skeleton parts, functions, joints, care, accidents	- Conduct written, oral, and practical activities; - Practice simple first aid for bone injuries	Skeleton model, charts, bandages	- Conduct written, oral, and practical tests covering skeleton parts, functions, joints, and care. - Evaluate practical demonstrations: labeling skeleton diagrams/models and practicing first aid for bone injuries. - Assess participation in group activities and ability to suggest preventive measures for skeletal health.	Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	
	Remedial session (1 period)							
	UNIT 12	MUSCLES						Periods: 8
	Key unit competence	Name the main types of muscles, explain what muscles do, practice safe exercises to keep muscles strong and show care in protecting their muscles from injuries.						
	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks

Week 8: 08-12/06/ 2026	Lesson 1: Definition and types of muscles (2 periods)	- Identify what muscles are and their role in enabling body movement. - Distinguish between voluntary or skeletal and involuntary smooth muscles based on their functions and control.	Muscles, voluntary, involuntary, skeletal, smooth, cardiac	- Demonstrate contraction and relaxation of voluntary muscles; discuss involuntary muscles; - Compare voluntary vs involuntary muscles using examples	Human muscles model, charts	- Ask pupils to identify and define muscles orally or in writing. - Observe pupils demonstrating contraction and relaxation of voluntary muscles. - Assess ability to distinguish voluntary, involuntary, and cardiac muscles using examples or models.	Science and Elementary Technology, Pupil's Book, Primary 4 (2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (2025); SET syllabus P4-P6 (2025)	
	Lesson 2: Major muscle groups (2 periods)	- Name the major muscle groups in the body and their locations. - Explain how each muscle group supports specific	Arm, leg, back, chest, abdominal, face, neck muscles	Explore and touch own muscles; identify major muscles in body; relate muscles to movements like walking, lifting, and writing	Charts, human muscles model	- Observe pupils locating and naming major muscle groups on themselves or models. - Ask questions linking specific muscle groups to daily activities (e.g., arm muscles for lifting). - Assess participation in discussions and hands-	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025); SET syllabus P4-P6 (REB 2025)	

		movements in daily life.				on exploration of muscles.		
Remedial session (1 period)								
Week 9: 15-19/06/ 2026	Lesson 3: Functions of voluntary muscles (1 period)	- Describe the main functions of voluntary muscles in movement, posture, and daily tasks. - Identify functions of voluntary muscles used in everyday activities like writing and playing.	Movement, posture, daily tasks, voluntary muscles	Demonstrate exercises using voluntary muscles; discuss role in writing, running, and playing	Charts, exercise props	- Evaluate pupils demonstrating movements using voluntary muscles (e.g., running, writing). - Oral or written questioning on the roles of voluntary muscles in posture and daily tasks. - Observe practical exercises showing understanding of voluntary muscle function.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB2025); SET syllabus P4-P6 (REB 2025)	
	Lesson 4: Accidents of muscles and first aid (1 period)	- Recognize common muscle accidents like cramps and their causes. - Demonstrate simple first	Muscle accidents, cramps, strain, first aid, prevention	- Role-play first aid for muscle cramps; - discuss causes, signs, and prevention; - Demonstrate stretching and massage techniques	Charts, models, exercise props	- Role-play scenarios where pupils respond to muscle cramps or strain. - Ask pupils to identify causes, signs, and prevention methods orally or in writing.	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's	

		aid steps to care for muscle cramps safely. - State ways to keep muscles strong and healthy.				- Observe proper demonstration of first aid techniques like stretching and massage.	Guide, Primary 4 (REB 2025);	
	Lesson 5: Caring for muscles (1 period)	Apply safe practices like warming up and correct posture to prevent muscle injuries	Muscle care, safe exercises, warm-up, posture	- Practice safe exercises and warm-ups; - Discuss good habits for muscle health; - Perform simple strength exercises	Exercise space, charts	- Observe pupils performing safe exercises, warm-ups, and correct posture practices. - Oral questioning or group discussion on habits that maintain muscle health. - Assess ability to plan and execute simple strength-building exercises safely	Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025); Science and Elementary Technology, Teacher's Guide, Primary 4 (REB 2025);	

	Lesson 6: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Muscle types, major muscles, functions, accidents, care	Conduct written, oral, and practical exercises; label muscle diagrams; role-play first aid	Human muscles model, charts	- Conduct written, oral, and practical tests covering muscle types, major muscle groups, functions, accidents, and care. - Observe pupils labeling muscle diagrams accurately. - Evaluate role-play of first aid and demonstration of safe exercises.	SET syllabus P4-P6 (REB 2025) Science and Elementary Technology, Pupil's Book, Primary 4 (REB 2025);	
	Remedial session (1 period)							
Week 10 & 11: 22/06 - 03/07/2026	END OF TERM 3 EXAMS
