

**SCHEME OF WORK
PRIMARY SIX (P6)
SCIENCE AND ELEMENTARY TECHNOLOGY (SET)**

Teacher's name		Academic year	2025/2026
School name		N° of students	
Class	P6	Terms	
Subject	Science and Elementary Technology for P6	Number of periods per week	4

TERM: 1

UNIT 1		MECHANICS TOOLS						Periods: 6
Key unit competence		Use mechanics tools correctly, take care of them, and act safely and responsibly when working with tools.						
Weeks/ Dates	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observa tion/Re marks
Week 1: 8-12/9/ 2025	Lesson 1: The common mechanics tools (2 periods)	Identify common mechanics tools.	Mechanics, hammer, Screwdriver, hacksaw, spanner, hand drill.	Observe the displayed range of mechanics tools, name them and match them with their use.	Spanner, jacks, pliers, screwdriver , hack saw	Draw, label, match and sort common mechanical tools.	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 2: Use and maintenan ce of	-Explain the use and maintenance of mechanics tools	Use, maintenance, care, cleaning, storing, repair.	Practical work about	Spanner, jacks, pliers,	Match tools to their correct maintenance steps (e.g., oiling, cleaning, inspecting)	-SET syllabus for upper primary (REB) 2025	

	mechanics tools (1 period)	-Explain how each tool is used and how to take care of mechanical tools -Develop interest in using tools to make and fix things -Show care and respect for mechanics tools.		the use and care for mechanics tools.	screwdriver , hack saw	and identify different maintenance of mechanical tools.	- SET, P6 pupil's book (REB)2025 -Teacher's guide (REB)2025	
	Lesson 3: Dangers of the misuse of mechanics tools (1 period)	- Identify potential dangers of misusing mechanics tools - Recognize the dangers of using tools in the wrong way. - Take responsibility for their own safety and the safety of others.	Misuse, dangers, accidents, safety, responsibility.	Practical work about the use and care for	Hand drill, bench vice,	- Explain the dangers of misusing mechanical tools. - Describe safety measures for tool use.	-SET syllabus for upper primary [REB 2025 - SET, P6 pupil's book [REB] 2025 -Teacher's guide [REB] 2025	
Remedial session (1 period)								
Week 2: 15-19/9/2025	Lesson 4: Precautions when using mechanics tools (1 period)	- Identify the ways of preventing and reducing the chances of dangers - Describe ways to keep safe and avoid accidents when using mechanics tools	Precautions, protective clothes, gloves, boots, mask, safe handling.	Create and use a checklist of safety steps for tool handling.	Spanner, jacks, pliers, screwdriver , hacksaw	-List precautions to take when using mechanical tools. -Match tools with their correct safety precautions. -Discussion and presentation on precautions when	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		- Follow safety rules when handling tools. - Use tools in a safe and respectful way to protect themselves, others, and the environment.				using mechanics tools		
	Lesson 5: End of unit assessment (1 period)	- Assess the acquired competences. - Demonstrate the achievement of the key unit competence.	Mechanics, dangers, tools, maintenance, dangers, precautions, safety.	Reading, understanding, and answering the questions	Spanner, jacks, pliers, screwdriver, hacksaw	- Written test to evaluate understanding of mechanics, tools, and safety - Oral questioning to check knowledge and recall - Practical exercises demonstrating correct use of tools - Group presentations on maintenance, dangers, and precautions - Matching exercises (tools ↔ names/functions)	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 - Teacher's guide (REB) 2025	
UNIT 2	SIMPLE MACHINES						Periods: 6	
Key unit competence		Identify, use, and care for simple machines in a safe and responsible way, and understand how they help make work easier.						

Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observa tion/Re marks
Week 2: (Continued) 15-19/9/ 2025	Lesson 1: Definition of simple machine and difference between simple machine and other tools (2 periods)	- Define simple machines - Differentiate simple machines from other types of tools. - Draw and label different types of simple machines. - Build simple models or patterns of levers and other machines.	Simple machines, tools, definition, difference, lever, wheel, pulley, inclined plane, wedge, screw.	- Brainstorm the meaning of simple machine; - Observe real or model tools and discuss which are simple machines; - Draw and label simple machines	Charts, pictures of tools, real objects (scissors, hoe, spade, screwdriver s) saw, hammer, bottle opener, wheelbarrow, pulleys	- Oral questioning to assess understanding of definitions - Observation of model/real tools to check differentiation skills - Drawing and labeling simple machines - Hands-on model building - Group discussion to reinforce understanding of differences	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 3: 22-26/9/ 2025	Lesson 2: Types of simple machines (2 periods)	-Identify different types of simple machines. -Describe the three classes of levers. -Group simple machines based on their classes.	Pulley Wedges Wheel and axle, inclined plane, Levers, Screws.	- Observe and discuss different types and characteristics of levels. - Group discussion on six types; station rotation to	Saw, hammer, bottle opener, wheelbarrow, pulleys	- Observation and discussion of simple machines - Group discussion and station rotation - Classifying levers by fulcrum, load, and effort	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

				explore simple machines; - Classify levers by position of fulcrum, load, and effort; - Sorting game distinguishing simple machines from other tools		- Sorting game of simple machines vs other tools		
	Lesson 3: Dangers and safety in using simple machines (1 period)	-Explain possible dangers of using of simple machines and how to prevent them. -Safe handling of different simple machines. -Be aware of safety when working with simple machines. -Act responsibly when using machines to avoid harming self or others. -Use simple machines carefully and correctly.	Dangers, accidents, safety, precautions, handling, responsibility.	-Provide a scenario that talk about the safe and unsafe use of machines. -Discuss the wrong and right use of machines.	Saw, hammer, bottle opener, wheelbarrow, pulleys	- Scenario-based discussion on safe and unsafe use - Observation of correct and safe handling of machines - Oral questioning on precautions and responsibility	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 4: End Unit Assessment	-Assess the acquired competences.	Review, competences, application	Written and oral assessment; practical demonstration of	Saw, hammer, bottle opener,	- Written and oral assessment of knowledge	-SET syllabus for upper primary (REB) 2025	

	(1 period)	-Demonstrate the achievement of the key unit competence.		identifying and using simple machines; learners explain safety rules	wheelbarrow, pulleys	- Practical demonstration of identifying and using simple machines - Learners explain safety rules	- SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
UNIT 3	AIR POLLUTION						Periods: 6	
Key unit competence		Identify causes and dangers of air pollution, take action to reduce it, and show care for clean and healthy air in the environment.						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Re marks
Week 4: 29/9- 3/10/ 2025	Lesson 1: Definition of air pollution and common air pollutants (2 periods)	-Define the term air pollution and recognize a polluted air. -Identify common air pollutants.	Pollution, air, pollutants.	Practice ways to reduce air pollution in daily life	Cigarette smoking, bush burning, factory releasing fumes	- Oral questioning on definitions and examples - Observation of learners identifying polluted air - Discussion/practice on ways to reduce air pollution	-SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

	Lesson 2: Sources of common air pollutants (1 period)	-Identify the sources of common air pollutants. -Apply the knowledge of recognizing air pollutants.	Industrial emission, Bush burning, Smoking, Vehicle emission.	Explain the causes of air pollution	cigarette smoking, bush burning, factory releasing fumes	- Oral questioning on sources of air pollutants - Observation during explanations of causes - Discussion linking sources to real-life examples	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 3: Consequences of polluted air (1 period)	-Identify causes and dangers associated with air pollution. -Explain the causes and dangers of air pollution.	Respiratory disease, Global warming.	Explain the consequences of air pollution on human health and the environment	cigarette smoking, bush burning, factory releasing fumes	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 5: 6 – 10/10/2025	Lesson 4: Protection of air against air pollutants (1 period)	-Explain how to protect air against air pollutants -Develop positive attitude towards avoiding air pollution -Describe how to keep the air clean and safe. -Appreciate the value of clean and fresh air. -Show interest in keeping the air clean.	Afforestation, Deforestation	Identify methods for protecting the air and controlling air pollution	Cigarette smoking, bush burning, factory releasing fumes	- Oral questioning on methods to protect air - Observation of learners suggesting and practicing protective actions - Discussion on positive attitudes toward clean air - Role play or demonstration promoting air-cleaning activities	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		-Act responsibly by avoiding activities that pollute the air. -Speak out and encourage others to stop polluting the air.						
	Lesson 5: End Unit Assessment and remediation (1 period)	-Assess the acquired competences. -Demonstrate the achievement of the key unit competence.	Pollution Consequences, Sources, Prevention	Reading, understanding, And answering the questions	Cigarette smoking, bush burning, factory releasing fumes	Drawing Matching Group Discussions and Collaboration Multiple choice	- SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 4	COWS AND GOATS MANAGEMENT						Periods: 12	
Key unit competence		Explain how to care for cows and goats properly and show good habits in keeping animals that help families and communities.						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ Approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 5: (Continued) 6-10/10/ 2025	Lesson 1: Characteristics of a good cowshed/goat shelter (2 periods)	List of a good cowshed/goats shelter.	Cowshed, Goat shelter,	State the characteristics of good cowshed or goat shelter	Photographs / charts showing various types of goats, textbooks, videos from the internet	Pose, Pause, Pounce, Bounce Discussions and Collaboration Multiple choice	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
Remedial session (1 period)								

Week 6: 13-7/10/ 2025	Lesson 2: Types of cattle breeds (1 period)	Identify the types and originality of cow breeds.	Cattle, Breed, Zebu cattle, Long horned, Friesian	Name different types of cows and goats and their uses.	Photographs / charts showing various types of goats, textbooks, videos from the internet	Group Discussions and Collaboration Matching and multiple choice	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 3: Types of goat breeds (1 period)	Identify the types and originality of goat breeds.	Goat, breed, Local, Foreign	Name different types of goat breed	Photographs / charts showing various types of goats, textbooks, videos from the internet	Group discussions and Collaboration Matching and multiple choice	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 4: Characteri stics of cattle breed to rear (1 period)	Select proper cattle to rear based on their characteristics.	Cattle Breed, rea, local feeds, meat, milk	State the characteristics of cattle breed to rear	Photographs / charts showing various types of goats, textbooks,	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 5: Characteri stics of goat breed to rear (1 period)	Select proper goats to rear based on their characteristics	Goat, breed, meat, local feeds.	State the Characteristic of goat breed to rear	Photographs / charts showing various types of goats, textbooks,	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							

Week 7: 20-4/10/ 2025	Lesson 6: Proper feeding of cows and goats (1 period)	Identify elements of a good diet of cattle.	Proper feeding, cow, goat.	State the Proper feeding of cows and goats	Photographs / charts showing various types of goats, textbooks	Pose, Pause, Pounce, Bounce Role-play	- SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 7: Cattle or goat health sanitation conditions (1 period)	Explain health sanitation conditions of cattle and goats.	Health sanitation, coat, cattle, conditions.	Outline the health sanitation conditions of cattle and goats	Photographs/charts showing various types of livestock, textbooks and videos from the internet	Group discussions and Collaboration Role-play	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 8: Common diseases of cattle/goat (1 period)	Explain the most common cattle diseases.	Parasitic diseases, infection diseases	Explain how to protect cows and goats from common diseases.	Photographs/charts on goats or cows that are sick, computers, and videos from internet.	Matching Multiple choice Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 9: Prevention and control measures of cattle and goat diseases (1 period)	Explain the prevention and the treatment of cattle and goat diseases.	Prevention, control, cattle, goat, diseases.	State the prevention and control measures of cattle and goat diseases	Pupil's textbook, photographs/charts showing animal drugs or pesticides, or videos on internet of animals being treated (If available)	Matching Multiple choice Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

	Remedial session (1 period)							
Week 8: 27-31/10/ 2025	Lesson 10: Importance of cattle/goat farming (1 period)	Explain the importance of cattle/goat farming.	Social importance, Economic importance, cattle, goat.	Explain the importance of cattle and goat farming	Photographs / charts showing various types of goats, textbooks	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 11: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	-Health sanitation, coat, cattle, conditions. -Parasitic diseases, infection diseases, Social importance, -Economic importance, cattle, goat	Reading, understanding, And answering the questions	Photographs / charts showing various types of goats, textbooks	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 5	WORD PROCESSING AND SPREADSHEET						Periods: 12	
Key unit competence		Manipulate documents using a Word Processing program, perform mathematical calculations using a Spreadsheet program and format a spreadsheet document.						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 8: (Continued)	Lesson 1: Making text bold,	To format text by applying bold,	Bold, italic, underline, text.	Bolding, making italic and underlining	Word processing software,	ICT Integration Practical work	SET syllabus for upper primary (REB) 2025	

27-31/10/ 2025	italic and underlined (2 periods)	italic, and underline styles.		in Word processing (or bolding, making italic and underlining in Abiword)	Sample text for formatting practice, Printed guides showing toolbar icons for formatting, Projector for demonstration and students' textbooks	Group Discussions and Collaboration	- SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 9 3-7/11/ 2025	Lesson 2: Changing font type, font size and font color (2 periods)	To change the font type, font size and font colour of text in a document	Font size, Font color, font type.	State the steps when to change the font type, font size and font color of text in a document	Computers with installed word processors, sample paragraphs for formatting, chart displaying different font type and sizes, printable quick reference cards showing formatting steps and	- Practical demonstration of changing font type, size, and color - Observation while learners follow steps on the computer - Oral questioning on steps and purpose of font formatting - Checking formatted documents for accuracy	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

					students' textbooks			
	Lesson 3: Opening and saving a workbook (2 periods)	Open a new and existing workbook, and save their work using appropriate file names.	Opening a document, Saving a document, workbook.	Describe how to open, save and close Word Processing and Spreadsheet.	Computer with a Spreadsheet program, projector, wallchart, P6 textbooks, images of a Spreadsheet environment with labels	- Practical demonstration of opening and saving a workbook - Observation of learners following correct steps - Oral questioning on file naming and saving procedures - Checking learners' saved work for correctness	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 10 10-14/11/2025	Lesson 4: Working with worksheets (2 periods)	-Manipulate worksheets by inserting, deleting, renaming new sheets - Modify a worksheet environment by changing columns and rows properties	Worksheet, deleting, inserting, renaming, columns, rows	Explain how to Create and save a worksheet in a workbook.	Computer with a Spreadsheet program, projector, wallchart, P6 textbooks	- Practical demonstration of inserting, deleting, and renaming sheets - Observation while learners modify rows and columns - Oral questioning on worksheet manipulation steps	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

						- Checking saved workbooks for correct worksheet changes		
	Lesson 5: Formatting a cell (2 periods)	Change the appearance of a cell content.	Format, cell	Recognize the formatting tools in AbiWord or Word and use them.	Computer with a Spreadsheet program installed, projector, wallchart, P6 textbooks, images showing cell content that was formatted	- Practical demonstration of formatting cell content - Observation while learners apply formatting tools - Oral questioning on functions of formatting tools - Checking learners' worksheets for correct cell formatting	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 11 17-21/11/2025	Lesson 6: Mathematical operations (1 period)	Perform basic mathematical operations on cell content.	Addition, subtraction, division.	Describe basic arithmetic operations and functions applied in spreadsheet programs.	Computer with a spreadsheet program installed, projector, wallchart, P6 textbooks, images	Practical Tasks and Fieldwork Practical work Group discussions	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

					illustrating use of the operations +, -, *, /			
	Lesson 7: End of unit assessment (1 period)	- Assess the acquired competences - Demonstrate the achievement of the key unit competence	Typing, editing, drawing	Reading, understanding, And answering the questions	Computer with a spreadsheet program installed, projector, wallchart, P6 textbooks, images illustrating use of the operations +, -, *, /	Practical Tasks and Fieldwork ICT Integration Practical work Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 6	INTRODUCTION TO EMERGING TECHNOLOGIES						Periods: 6	
Key unit competence		Explore, apply, and reflect on the use of emerging technologies to solve real-life problems and improve everyday activities.						
Dates/weeks	Lesson title/period	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 11: (Continued) 17-21/11/2025	Lesson 1: Use of technology in our lives (2 periods)	- Identify common emerging technologies used at home, school and in the community -Explain how robotics are used to improve daily life	Emerging, technologies, robotics, drone, health care, virtual reality, augmented reality,	identify common emerging technologies used in daily life at home, school, and in the community	Projector, Visual Aids such as smartphone , washing machine, fan, laptop,	ICT Integration Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		-To describe the use of drone's in improving health care in Rwanda -Explain how robotics can be used to help humans in doing different tasks -Explain how virtual reality and Augmented reality can be used in improving learning. -Value the positive impact of new technologies on education, health, safety and communication	education, health, safety, communication .		microwave, real objects such as a calculator, remote control.			
Remedial session (1 period)								
Week 12: 24-28/11/2025	Lesson 2: Types of Emerging Technologies (2 periods)	-Describe how each type of emerging technologies can improve services in different areas -Explain the characteristics of emerging technologies vis a vis change over time -Match emerging technologies with	Robotics kits, Virtual Reality, Augmented Reality	Explain the Types of Emerging Technologies	Computer projector and Pupil's book, Robotics kits, 3D Printing.	ICT Integration Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		their real-life applications -Analyze simple scenario problems and suggest appropriate emerging technologies to solve the problems. -Explain how emerging technologies could be used to solve the current problems in their community.						
	Lesson 3: The importance of Emerging Technologies (1 period)	-Explain how emerging technologies are useful in solving real-life problems. -Reflect on how emerging technologies can support learning, safety, communication, and productivity	Artificial intelligent, Safety,	Describe the application of emerging technologies such as robotics, AI, Augmented Reality, Virtual Reality, Drones and IoT	Computer and projector, short educational videos showing different new technologies being used	- Oral questioning on uses of emerging technologies - Group presentations explaining real-life applications - Observation during discussions and reflections - Short written tasks describing how technologies support safety, learning, or productivity	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

	Lesson 4: End unit assessment (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Robotics kits, Virtual Reality, Augmented Reality	Reading, understanding, answering the questions	Computers with internet connection, charts to illustrate immerging technologies.	ICT Integration Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	
	Remedial session (1 period)							
UNIT 7	PROGRAMMING FOR CHILDREN						Periods: 4	
Key unit competence		Use Scratch to design shapes, do calculations, and create simple animations with sprites and backgrounds.						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 13: 1-5/12/ 2025	Lesson 1: Drawing Polygons (2 periods)	-Explain the steps to save, open, delete and rename a project -Identify turtle art instruction to draw cylinder, cube, cuboids -Use Turtle Blocks to draw regular polygons by	Turtle Blocks, regular polygons, Turtle Art Forward, Right, Left, Back word,	State the steps flowed when to Drawing shapes with Turtle blocks	drawing shapes and explaining concepts, Polygon reference chart (with names and	Drawing ICT Integration Practical Tasks and Fieldwork	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	

		combining movement and turning blocks			pictures), pupils' books.			
	Lesson 2: Drawing Equilateral and Right-Angled Triangles (2 periods)	-Use Turtle Blocks to draw both an equilateral triangle and a right-angled triangle. -Apply correct turning angles in Turtle Blocks to accurately draw triangle shapes	Angle size, Steps, Equilateral triangle, Right triangle	In group drawing equilateral and right-angled triangles	XO Laptops with Turtle Blocks installed, Rulers and protractors	Drawing ICT Integration Practical Tasks and Fieldwork	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Weeks 14 & 15: 8-19/12/2025	END TERM 1 EXAM							

TERM 2

UNIT 7	PROGRAMMING FOR CHILDREN							Periods: 10
Key unit competence		Use Scratch to design shapes, do calculations, and create simple animations with sprites and backgrounds.						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observa tion/Re marks

Week 1: 5-9/1/ 2026	Lesson 3: Drawing 3D shapes in Turtle Art (2 periods)	-Use Turtle Arts to draw simple 3D-like shapes by combining lines and angles to create depth. -Construct and produce different geometric shapes using turtle art instructions	3D shape models, Pre-made Turtle Art files,	In group Drawing 3D shapes in Turtle Block	Computers with Scratch, Projector or screen for demonstration and printed papers showing different shapes	- Observation of learners constructing 3D-like shapes using Turtle Art - Practical tasks: learners create and display different geometric shapes - Peer assessment during group drawing activities - Short oral explanation of steps used to build 3D shapes	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 4: Using Scratch in Mathematical operations (2 periods)	-Create a simple Scratch program that applies a mathematics idea -State how to compute the sum, difference, product, quotient or average in Turtle Art -Compute and perform different	Scratch projects, guides, Turtle Art, Scratch	Review how mathematical operations are done, brainstorm on how they can be done in Scratch and carry out different mathematical operations in	Using a projector, show a sample game, play it and show its code	- Practical tasks: learners create Scratch programs to perform basic operations - Observation of learners applying math concepts in Scratch - Oral questioning on steps for	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		calculations in Scratch		Scratch.		computing in Scratch - Peer review of created projects		
Remedial session (1 period)								
Week 2: 12-16/1/ 2026	Lesson 5: Drawing shapes in Scratch (2 periods)	-Use Motion, Turn and Pen blocks in Scratch to draw simple geometric figures -Explain how angles and steps are used in Scratch to form different shapes.	Pen down block, Motion block, Clear block, Repeat block, Stamp block, Scratch	n groups brainstorm the properties of different shapes and draw them using Scratch.	XO Laptop	Drawing ICT Integration Practical Tasks and Fieldwork	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 6: Using Variables in Scratch (1 period)	Create and use variables in Scratch to store and change data such as keeping track of scores	Create, Variable, Scratch, Sprite, store, data	In group discuss how to Make game with a variable and stories in Scratch	Computer with a projector or interactive whiteboard , sample project illustrating the use of variables	Drawing ICT Integration Practical Tasks and Fieldwork Make game with a variable and stories in Scratch	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 7: Making interactive stories in Scratch (1 period)	Create an interactive story having a beginning, middle and end by using Scratch blocks	Clicked, Key pressed, Sprite clicked, Scratch blocks	In groups, invent an interactive story and make it in Scratch.	Computer and a projector, video for demonstrating what is	Drawing ICT Integration Practical Tasks and Fieldwork	- SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

					interactive story			
Remedial session (1 period)								
Week 3: 19-23/1/ 2026	Lesson 8: Creating a Simple Game in Scratch (1 period)	-Use control, sensing, and motion blocks to build a simple game. -Use variables to track score or time. -Show creativity for designing and creating more projects reflecting the real-life experience -Appreciate the way of expressing the ideas through projects, animations -Be proud to arrange commands and produce animations	Player sprite, Target, Obstacles, Rules, Code block, Making a game, Catching game	In groups, choose a game idea and implement it in Scratch by including a score counter	ample game project for demonstration, sensing, and motion blocks to build a simple game.	Drawing ICT Integration Practical Tasks and Fieldwork	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 9: End of unit assessment (1 period)	Practice the content of the unit.	Create, Variable, Scratch, Sprite, store, data Scratch projects, guides, Turtle Art, Scratch	Reading, understanding, And answering the questions	Sample game project for demonstration, sensing, and motion blocks to build a	Drawing ICT Integration Practical Tasks and Fieldwork	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

					simple game.			
UNIT 8		PLANTS REPRODUCTION						Periods: 8
Key unit competence		Unit title						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observa tion/Re marks
Week 3: (Continued) 19-23/1/ 2026	Lesson 1: Parts of a complete flower (2 periods)	- Identify the reproductive parts of a flower - Draw and label a flower.	Flower, Reproductive, Male, Female, Flower, Stalk, Calyx, Corolla, Stigma, Style, Ovary, Ovules, Anthers, Filament	In group, collect different samples of flowers in the school surroundings, dissect a complete flower and observe and name its parts.	charts on parts of a flower, hand lens, razor-blade, flowers collected from the field,	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 4: 26-30/1/ 2026	Lesson 2: Types of plant reproduction (2 periods)	-Define and explore the types of plant reproduction. -Take interest in growing plants at home and at school	Reproduction, Sexual and asexual reproduction	In small groups, discuss the various ways in which plants reproduce (sexual and asexual) and present findings.	Textbooks, chart or photographs computers connected to the internet, plant parts such as sugar cane cuttings, seeds and root tubers.	Group Discussions and Collaboration Matching	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 3: Sexual reproducti	-Explain the processes of sexual	Ovary, anther, pollination, cross	In small groups, Explain how flowering	A well-painted diagrams of processes such	Drawing	SET syllabus for upper primary (REB) 2025	

	on in flowering plants (1 period)	reproduction of flowering plants -Identify plants that reproduce sexually or asexually by looking at them	pollination and self-pollination, Stamen, Corolla, Calyx, Agent of pollination, Fertilization, Germination	plants reproduce sexually.	as grafting, cuttings, budding, layering	Practical Tasks and Fieldwork Group Discussions and Collaboration	- SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 4: Asexual reproduction in plants (1 period)	-Explain the process of asexual reproduction of flowering plants -Recognize just by looking at plants and flowers those reproducing either sexually or asexually.	Grafting, Cutting, Layering, Sucker	In small groups, discuss the various ways in which plants reproduce by asexual	A well-painted diagrams of processes such as grafting, cuttings, budding, layering	Drawing Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 5: 2-6/2/2026	Lesson 5: Reasons for plants reproduction (1 period)	-Explain reasons of plant reproduction. -Value both individual and group work in protecting plants and nature.	Fruits, Seeds, Vegetables, Medicines, food	Conduct research using library books/search engines, make a group discussion of reasons of plant reproduction.	Charts, textbooks on reproduction in flowering plants	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

	Lesson 6: End of unit assessment (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Choice Matching Drawing Labelled	Reading, understanding, And answering the questions	Flowers, cassava stem, sweet potatoes stem	Drawing Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 9	SUSTAINABLE WASTE MANAGEMENT						Periods: 8	
Key unit competence		Understand different types of waste, use ways to manage waste safely, and show care for the environment by handling waste properly.						
Dates/Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 5: (Continued) 2-6/2/2026	Lesson 1: Classification of wastes (1 period)	-To differentiate between biodegradable and non-biodegradable wastes. -Name different sources of waste -Show responsibility by separating hazardous, organic, and recyclable waste.	Waste, Biodegradable, Non-biodegradable, Feature, Harmful, Non-harmful,	Make a field visit in school surroundings to discover hazardous, organic and recyclable materials and classify them	Vegetable remains, stone, old plastic, empty cement bag, used gloves	Role-play Group Discussions and Collaboration Grouping	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 2: Sources of waste:	Identify different sources of wastes.	Waste, Municipal, Medical,	In group work, identify the different sources of wastes	Agriculture waste,	Role-play Group Discussions	SET syllabus for upper primary (REB) 2025	

	Municipal, medical and agricultural (1 period)		Agriculture, Automobile, Construction, electronics, industrial,	and present the findings	constriction waste	and Collaboration	- SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
Remedial session (1 period)								
Week 6: 9-13/2/2026	Lesson 3: Sources of waste: Automobiles and construction (1 period)	Identify different sources of wastes.	Automobile waste, Construction waste	Class visit automobile and construction site to observe different waste found there	Dust bin, images of car transporting waste	Practical Tasks and Fieldwork Role-play Group Discussions	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 4: Sources of waste: Electronics and industrial (1 period)	Identify different sources of wastes.	Electronic waste, Industrial waste.	Class visit electronics and industrial.	Crop cultivation, Vehicle reparations and maintenance, Production of goods, expired drug	Practical Tasks and Fieldwork Role-play Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 5: Waste management techniques (2 periods)	-Cite, explain and practice waste management techniques. -Investigate different ways people manage waste in their community	Reduce, prevention, Re-use, Recycle, Recovery, Composting, Landfilling, Disposal,	Demonstrate or discuss a variety of waste management techniques such as composting, recycling, reusing, and safe disposal of	Dust bin, picture of landfill,	Role-play Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		-Practice basic waste management methods like sorting and safe disposal	Monitoring, Regulation	hazardous waste.				
	Remedial session (1 period)							
Week 7: 16-20/2/ 2026	Lesson 6: End of unit assessment (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Project, Assessment, Skills, Choose	Reading, understanding, And answering the questions	Dust bin, picture of landfill,	Practical Tasks and Fieldwork Role-play Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	
UNIT 10	HUMAN CIRCULATORY SYSTEM						Periods: 16	
Key unit competence		Identify parts of the circulatory system, describe how it works, and develop healthy habits to keep it working well.						
Dates/weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks
Week 7: (Continued) 16-20/2/ 2026	Lesson 1: Main function of the circulatory system (2 periods)	-Identify the main function of the circulatory system. -Describe how the circulatory system works in transporting blood.	Blood, Circulation, Nutrients	In group, make research from library books/search engine to discuss about the main function of the human circulatory system	Wall chart or poster showing the human circulatory system	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	
	Remedial session (1 period)							

Week 8: 23-27/2/ 2026	Lesson 2: Organs of the circulatory system (2 periods)	Draw and name the key organs of the circulatory system.	Heart, Blood, Blood Vessels, Organs, Circulatory system	Observe the wall charts or other learning support to describe the parts of human circulatory system	A chart showing human heart and the neighbor organ	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 3: Structure of the human heart (2 periods)	-State the main parts of the heart. -Draw and label the basic structure of the heart.	Chambers, Auricles, Atria, Ventricle, Heart valves, Septum	Observe the wall charts or other learning support to describe the parts of human heart	Cross-section diagram or 3D model of the heart	Drawing Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 9: 2-6/3/ 2026	Lesson 4: Blood vessels (2 periods)	-Identify types of blood vessels. -Differentiate blood vessels based on function and structure.	Arteries, Veins, Capillaries, Vena cava, Pores	In group discuss the types of Blood vessels	Chart showing arteries, veins, and capillaries	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 5: The process of blood circulation (2 periods)	-Outline how blood flows through the heart and body. -Develop the habit of regularly checking blood pressure.	Valves, Oxygenated blood, Deoxygenated blood, Pulmonary artery, Aorta, Vena cava	Observe the wall charts or other learning support to describe the process of blood circulation	Videos that show Step-by-step flow diagram of blood movement	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

Remedial session (1 period)								
Week 10: 9-13/3/ 2026	Lesson 6: Components of blood (2 periods)	-List components of blood. -Match each component with its function.	Red blood cell, White blood cell, Platelets, Plasma, Hemoglobin, Clotting.	In group discuss the Components of blood	flashcards with blood component	Matching Multiple choice Pose, Pause, Pounce, Bounce	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 7: Caring for our bodies and health of our circulatory system (1 period)	-Identify ways to keep the circulatory system healthy. -Take responsibility to keep their circulatory system healthy. -Practice good hygiene to keep the circulatory system healthy.	Balanced diet, Physical exercise, Rest, Smoking, Sport	In group, research and discuss on hygiene of the human heart and circulatory system	Picture of person doing physical exercise, Chart showing human heart	Role-play Matching Multiple choice Pose, Pause, Pounce, Bounce	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 8: Common diseases of circulatory system, symptoms, control, and prevention (1 period)	-Mention common circulatory system diseases. -Describe symptoms and prevention methods of circulatory diseases. -Be aware of diseases that affect the circulatory system	Heart attack, Hypertension, High blood pressure, Stroke	Field trip at a nearest health center and get blood pressure tested, discuss and interpret the results.	Charts showing symptoms, Chart showing circulatory diseases	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							

Week 11: 16-20/3/ 2026	Lesson 9: Blood pressure measurement (1 period)	Observe and describe how blood pressure is measured using a device	Normal blood flow, Abnormal blood flow, Blood pressure meter, sphygmomanometer	Use different blood pressure meter test result to discuss about positive and negative result	Blood pressure meter, chart showing normal and abnormal pressure ranges	Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 10: End of unit assessment (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Project, Choice, True or false, Drawing	Reading, understanding, And answering the questions		Pose, Pause, Pounce, Bounce Group Discussions and Collaboration Matching Multiple choice Pose, Pause, Pounce, Bounce	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 11	HUMAN RESPIRATORY SYSTEM						Periods: 2	
Key unit competence		Explain how the respiratory system works, describe and care for it, and practice healthy habits to keep it working well.						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks

Week 11: (Continued) 16-20/3/ 2026	Lesson 1: Organs of the human respiratory system and their main functions (2 periods)	-Explain the main function of human respiratory system. -Describe the human respiratory System. -Draw and label the parts of the respiratory system.	Lungs, Nose, Trachea, Bronchiole, Bronchus, Diaphragm	In group make research from library books/search engine and discuss about the main function of respiratory system	Charts on parts of the human respiratory system.	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 12&13: 23/3- 3/4/2026	END OF TERM TWO EXAM							

TERM 3

UNIT 11	HUMAN RESPIRATORY SYSTEM						Periods: 6	
Dates/ Weeks	Lesson title/period s	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observa tion/Re marks
Week 1: 20-24/4/ 2026	Lesson 2: Mechanism of respiration (breathing)	-To explain the process of respiration. -To describe the mechanism of	Breathing in, Breathing out, Inhalation, Exhalation, Inspiration,	Practical activity using balloons to discuss the	Bell jar, balloons, rubber sheet, stoppers and Y- shaped	Practical Tasks Pose, Pause, Pounce, Bounce	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025	

	(2 periods)	respiration.	Expiration, Respiratory model.	mechanism of breathing.	glass tube, charts on breathing mechanism	Group Discussions and Collaboration	-Teacher's guide (REB) 2025	
	Lesson 3: Good health practices and behaviors (1 period)	-Explain the care of the human respiratory system. -Practice ways to take care of their respiratory system -Show care for the hygiene of the respiratory system. -Develop the habit of regular health check- ups	Balanced diet, Alcohol, Physical exercise, Vitamins, Rest	In group discuss different good health practices and behaviors of respiratory system	Respiratory model	Role-play Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 4: Diseases of respiratory system (1 period)	-Identify main diseases of the respiratory system and state their causes, signs & symptoms and how to prevent them. -Be aware of diseases that affect the respiratory system. -Encourage others to avoid smoking.	Tuberculosis, Asthma, Bronchitis, Pneumonia	Group discussion research on various diseases of respiratory system.	Chart showing respiratory disease	- Oral questioning on causes, signs, and prevention of diseases - Group presentations on researched diseases - Observation of participation in discussions - Written short notes or	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

						matching diseases with their causes/symptoms		
	Remedial session (1 period)							
Week 2: 27/4-1/5/2026	Lesson 5: Suffocation (1 period)	To define suffocation, state its causes and do first aid to a suffocation victim.	Suffocation, Choking, Drowning, Chest, Compression, Resuscitation,	Group discussion about suffocation (cause, prevention and first aid in case of suffocation)	Respiratory model	Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 6: End of unit assessment (1 period)	-Assess the acquired competences. -Demonstrate the achievement of the key unit competence.	Balloons, Fill-in-the blanks, Attitudes and Values	Reading, understanding, And answering the questions		Role-play Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 12	HUMAN REPRODUCTIVE SYSTEM						Periods: 16	
Key unit competence		Identify the parts and functions of the human reproductive system, explain hygiene practices, puberty changes, and responsible behaviors, and show positive attitudes toward prevention of diseases and respect for people living with STIs and HIV						

Dates/ Weeks	Lesson title/period s	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observa tion/Re marks
Week 2: (Continued) 27/4-1/5/ 2026	Lesson 1: Functions of human reproductiv e system (2 periods)	To give functions of human reproductive system.	Reproduction, Male, Female, Babies	In group make a research from library books/search engine and discuss about the main function of reproductive system	Charts of reproductive system, Picture in Pupil's books, Internet, Relevant textbooks, Models	Oral questioning on functions Group presentations from research Written short answers	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 3: 4-8/5/ 2026	Lesson 2: Major internal and external parts of the male reproductiv e organ and their functions (1 period)	-Identify the male and female reproductive organs. -State the function of genital organs.	Penis, Scrotum, Testes, Prepuce, Epididymis, Vas Deferens, Seminal Vesicles, Glans penis, Erectile material, Urethra	Observing the wall chart, drawing and labelling the external and internal male reproductive systems.	Charts and flash cards,	Drawing and labeling activity Oral Q&A on functions Observation of participation	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 3: Major internal and external	-To recognize the female reproductive systems.	The labia majora, Labia minora, Hymen,	Observing the wall chart, drawing and labelling the external and internal female reproductive	Charts and flash cards	Drawing and labeling activity	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025	

	parts of the female reproductive system (2 periods)	-To give the functions of the female reproductive system's parts.	Clitoris, Mon pubis, Perineum, Urethra, Vagina, Ovary, Uterus, Cervix, Fallopian tubes.	systems.		Written exercises on functions Oral questioning	-Teacher's guide (REB) 2025	
	Lesson 4: Hygiene of the male and female genital organs (1 period)	-To explain how to maintain the hygiene of male and female reproductive organs. -To show concern to care for the genital male and female organs. -Demonstrate proper hygiene practices for external genital organs -Show care for genital health to prevent diseases.	Hygiene, Periods, Sanitary towels, Uncircumcised, Underwear, Medical	In group Explain how to keep genital organs clean and healthy.	Harts, Picture in Pupil's books, Internet, Soap, wat	Group presentations on hygiene practices Role-play demonstration of proper hygiene Observation of learner contributions	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 4: 11-15/5/2026	Lesson 5: Sexual characteristi	-To identify sexual characteristics of	Puberty, Sexual changes,	In group, Identify sexual changes at	Charts, Pictures, XO laptops	Group discussions	SET syllabus for upper primary (REB) 2025	

	cs at puberty (2 periods)	boys and girls at puberty. -To identify principles of responsible sexual behavior of boys. -To appreciate the importance of talking about changes at puberty. -To show concern to care for genital organs	Breasts, Monthly periods, Menstrual flow, Hips, Chest, Shoulder, Wet dreams, Semen	puberty and responsible sexual behavior		and presentations Matching activity (changes in boys vs girls) Oral questioning	- SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 6: Safe and responsible sexual behavior and choices (2 periods)	-To explain responsible sexual behavior. -To practice the principles of responsible sexual behavior. -To be aware of responsible sexual Behavior.	Abstinence, Sugar daddy, Sugar mummy, Mob justice, Jailed, Drug		Charts, Pictures, Illustrations, Models	Role-play scenarios on responsible behavior Written exercises (dos and don'ts) Group discussions	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 5: 18-22/5/2026	Lesson 7: Prevention of early pregnancy (1 period)	-Describe unplanned pregnancy to make safe and responsible choices to prevent it.	Early pregnancy, Abstinence, Sexual exploitation, Contraceptive,	In group, discuss on ways of avoiding unwanted pregnancy	Charts showing the contraceptives. condoms, pills, diaphragms and	Group discussions with presentations	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025	

		-Describe how to prevent unintended pregnancy.	Dropping out, Emotions, Teenage, Abortion		coils, pipe, string,	Oral Q&A on prevention methods Written short answers	-Teacher's guide (REB) 2025	
	Lesson 8: Sexually transmitted infections (STIs) (1 period)	-Describe STIs are, explain how they spread, and how people can to protect themselves by making safe and healthy sexual choices. -Be aware of ways to reduce the risk of infection.	Sexual Transmitted infection, Sexual contact, Syphilis, Herpes, Gonorrhea, Chancroid, Genital candidiasis, HIV & ADS	A role play/exercises and discussion on how STIs and HIV/AIDS are transmitted and can be prevented	Chart of sexual transmit ion infection	Role-play on prevention Group discussions Oral questioning	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 9: Means of transmissio n of common STIs/HIV (1 period)	-Identify the ways common STIs and HIV are transmitted and demonstrate how to stay safe and healthy -Respect people with STIs or HIV without judging them -Show personal responsibility to protect themselves from STIs and HIV.	Sexual intercourse, Pointed object, Sharp cutting object, Pregnancy, Childbirth, Breastfeeding	In group Name common sexually transmitted infections (STIs) and how to prevent them.	textbooks, magazines, and any other improvised teaching and learning resources that can demonstrate the means of sexually transmitted infections.	Group activities naming STIs and prevention methods Written exercises (causes & prevention) Observation of participation	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		-Explain how to live positively with HIV and AIDS. -Demonstrate ways to support and care for someone living with HIV/AIDS. -Name common sexually transmitted infections (STIs) and how to prevent them.						
	Lesson 10: Prevention and treatment of Sexually Transmitted Infections (STIs) (1 period)	-Explain available treatment for HIV and AIDS and how to prevent it -Name common sexually transmitted infections (STIs) and how to prevent them.	Prevention, Abstaining, Sexual intercourse, Spouses, Condom, Sexual transmitted infection	In group discuss the ways of prevention and treatment of Sexually Transmitted Infections (STIs)	Textbooks, magazines on the prevention and treatment of common STIs and HIV.	Group discussion with presentations Oral questioning on prevention/treatment Written short answers	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 6: 25-29/5/ 2026	Lesson 11: Living positively with HIV and AIDS (1 period)	-Explain how to live positively with HIV and AIDS -To state how to live positively with HIV and AIDS patients -Demonstrate ways to support and care for	HIV & AIDS, Patient, Balanced diet, Behavior, ART, Love, Affection	In group, make a discussion about positive ways of living with HIV and AIDS.	Textbooks and magazines on how to live positively with HIV and AIDS.	Group discussions and role-play Oral Q&A on care and support	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		same one living with HIV / AIDS -Respect people with STIs or HIV without judging them				Written reflection activity		
	Lesson 12: End of unit assessment (1 period)	-Assess the acquired competences -Demonstrate the achievement of the key unit competence	Project, Choose, Fill-in-the blanks, Skills, True or False	Reading, understanding, And answering the questions	textbooks and magazines on how to live positively with HIV and AIDS	Written test (fill-in-the-blanks, true/false, short answers) Oral questioning Practical demonstration through group presentations	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	
UNIT 13	ENERGY MANAGEMENT						Periods: 7	
Key unit competence		Identify different forms and sources of energy, show how energy changes from one form to another, use energy wisely, and care about using clean energy to protect the environment						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks

Week 6: (Continued) 25-29/5/ 2026	Lesson 1: Definition and forms of energy (1 period)	-Define the concept of energy -List the forms of energy -Make relevant choice of the best form of energy to use	Energy, Effort, Chemical, Thermal, Electrical, Magnetic, Kinetic, Potential.	In group, Research from library books/search engine and make discussion about the definition and forms of energy.	Firewood, charcoal, kerosene, pen matches and match boxes, kerosene	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 2: Energy transformation/energy conversion (1 period)	-Explain ways of energy transformation/conversion -To representing diagrams on the transformation of energy in different forms -Draw diagrams that show energy transformation.	Chemical energy, Thermal energy, Electrical energy, Kinetic energy, Potential energy, Radio, Solar panel, Torch	Working small groups to practice the types of energy transformation	Torch, dry cells, matches and match boxes bulb, switch, kettle	Practical Tasks and Fieldwork Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 7: 1-5/6/ 2026	Lesson 3: Importance of energy (1 period)	-Explain the importance of energy -Explain why energy is important. -Be aware of using energy wisely and carefully. -Show concern about how energy use	Move, Light, Transport	In groups, discuss the economic impact of the use of energy.	Wood, Charcoal, Sun, Telephone. Charts of importance of energy	- Oral questioning on uses of energy - Group presentations on importance of energy	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		affects the environment.				- Short written exercises (listing uses of energy) - Observation of participation in discussions		
	Lesson 4: Sources of energy (1 period)	Identify the main sources of energy.	Wind, Solar, Hydropower, Biomass, Natural gas, Nuclear energy, Petroleum, Geothermal	In group discuss different sources of energy	Solar panels, generators, windmills, dry cell	- Group work presentations identifying sources - Matching sources with examples (flashcards or charts) - Oral Q&A for clarification - Written short answers	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 5: Renewable and non-	-Identify and explain renewable	Renewable energy,	In group, observe picture	Solar panels, solar battery, bulbs, chart on	- Classification on activity (sorting	SET syllabus for upper primary (REB) 2025	

	renewable energy (1 period)	energies and state some examples -To do advocacy of the use of renewable energy	Non-renewable energy, Solar energy, Wind energy, Hydropower, Geothermal energy, Biomass, Biogas, Hydro-electric power, Fossil fuels, Nuclear energy	about energy sources and discover the existence of renewable and non-renewable energy.	an installed solar power plant,	renewable vs non-renewable) - Group discussions with presentations - Written exercises (listing examples) - Observation of learner contributions	- SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 6: Advantages of using renewable energy (1 period)	-Explain advantages of using renewable energy. -Encourage the use of clean, renewable energy.	Renewable energy, Pollution, Smoke, Solar panels, Wind turbines, Sunlight, Wind, Biomass	Research and make group discussion about advantages of using renewable energy.	Solar panels, solar battery, bulbs, chart on an installed solar power plant,	- Group presentations on advantages of renewable energy - Oral questioning to check understanding - Written short answers or	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

						matching activity - Observation of learners' participation in discussions		
	Remedial session (1 period)							
Week 8: 8-12/6/ 2026	Lesson 7: End of unit assessment and remediation (1 period)	-Assess the acquired competences. -Demonstrate the achievement of the key unit competence.	Fill-in-the blanks, Multiple choice, Puzzle, Choose, Circle	Reading, understanding, And answering the questions	Solar panels, solar battery, bulbs, chart on an installed solar power plant	Role-play Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
UNIT 14	MAGNETISM						Period: 7	
Key unit competence		Explain how magnets work, identify different types and use of magnets, make a temporary magnet, and show interest in exploring magnets in daily life						
Dates/ Weeks	Lesson title/periods	Learning objectives	Content summary	Teaching and learning activities/ approaches	Teaching and learning aids	Assessment	References	Weekly observation/Remarks

Week 8: (Continued) 8-12/6/ 2026	Lesson 1: Definition and types of magnets (1 period)	-Define a magnet -Explain what a magnet is made of -Explain different types of magnets and magnetic fields. -Differentiate types of magnets	Magnet, Natural magnet, Artificial magnet,	In group, make research from library books/search engines to discuss about the meaning and types of magnets.	Bar magnets, pins, paper clips rubber, pencils or pieces of wood, coin, string	Pose, Pause, Pounce, Bounce Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 2: Making a temporary magnet (1 period)	Make a temporary magnet.	Magnetization, Temporary magnet, Permanent magnet, Magnetism	In group discuss how to Making a temporary magnet	Permanent magnet, Nail, piece of copper wire	Practical work Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Lesson 3: Characteristics of magnets (1 period)	Identify the characteristics of Magnets.	North pole, South pole, Magnetic force,	Carry out practical activity to demonstrate the characteristics of non-magnets and magnetic materials.	Bar magnets, pins, paper clips rubber, pencils or pieces of wood, coin, string	Practical work Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 9: 15-19/6/ 2026	Lesson 4: Magnetic forces and magnetic materials (1 period)	-Classify material according to magnetic force. -Compare and classify the types of magnets, non-magnets and	Magnetic force, Magnetic materials, Non-magnetic material	In groups, use two magnets to explore attraction and repulsion at different poles and record observations.	Sheet of paper, iron fillings, biro pen casing, pieces of glass, cork, sewing needle, charts of	Practical work Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil's book (REB) 2025 -Teacher's guide (REB) 2025	

		magnetic materials.			magnetic and non-magnetic materials			
	Lesson 5: Magnetic field (1 period)	Explain magnetic field.	Magnetic field, Magnetic force	-Investigate the magnetic field using a permanent magnet, a white sheet of paper and iron filings. -In groups, use two magnets to explore attraction and repulsion at different poles and record observations.	Iron fillings, a piece of white paper, charts showing magnetic field	Practical work Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	
	Lesson 6: Magnetic compass, and uses of magnets (1 period)	-List some uses of magnets in everyday objects. -Show curiosity about how magnets work and how they are used every day.	North direction, Magnetic compass, electronic cards, refrigerator, speakers	In group using a magnet to find the lost magnetic materials	Three needles, thread, horseshoe magnet, clear plastic jar	Practical work Group Discussions and Collaboration	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025 -Teacher’s guide (REB) 2025	
	Lesson 7: End of unit assessment (1 period)	-Assess the acquired competences. -Demonstrate the achievement of the key unit competence.	Knowledge, Skills, Attitudes and values, Project	Reading, understanding, And answering the questions	Iron fillings, a piece of white paper, charts showing magnetic field	- Written test (answering questions) - Practical tasks using iron filings	SET syllabus for upper primary (REB) 2025 - SET, P6 pupil’s book (REB) 2025	

						to show magnetic fields - Group discussions and presentations - Oral questioning through Pose, Pause, Pounce, Bounce technique	-Teacher's guide (REB) 2025	
	Remedial session (1 period)							
Week 10&11: 22/6-3/7/2026	END TERM 3 EXAMS
